ABSTRACT

This narrative report provides descriptive information on the Louisiana adult education program. The report compares accomplishments to goals established for fiscal year 1986; defines reasons for slippage in areas in which goals have not been met; and determines on a statewide basis the average cost per student. Some of the highlights of the report are the following: (1) the program enrolled nearly 50,000 adults; (2) the average cost per student was \$130.23; (3) more than 10,000 students received General Educational Development certificates; (4) more 'an 5,000 completed the eighth grade; (5) full- and part-time administrators and staff numbered more than 1,000; and (6) the majority of classes were conducted in the evenings in secondary and elementary school buildings, and 48 learning centers offered alternative adult education classes on a full-time basis. Recommendations were made for additional funding to improve the programs through the acquisition of new materials and software and upgrading and replacement of materials. More than half of the document consists of 16 appendices and 2 addenda containing statistical tables, administrative forms, addresses of adult education programs, results of a program evaluation, and instructions for preparing an annual performance report. This public document was published at a total cost of \$654.05. Three hundred copies of this public document were published in this printing at a cost of \$654.05. The total cost of all printings of this document, including reprints, is \$654.05. This document was published by Louisiana Department of Education, P.O. Box 94064, Baton Rouge, LA 70804-9064 as part of the Department's information program under the authority of Public Law 91-230, as amended. This material was printed in accordance with the standards for printing by State agencies established pursuant to R.S. 43:31.

Ü

FOREWORD

This narrative report has been compiled to provide descriptive information on the State Adult Education Program, Public Law 91-230 as amended and Revised Statutes 17:14 (Act 274 of 1975 as amended): and (1) to compare accomplishments to goals established for the fiscal year, (2) to define reasons for slippage in areas where established goals have not been met, and (3) to determine on a statewide basis the average cost per student. (See Appendix A.)

I. A Comparison of Accomplishments to Goals Described in the Plan for Fiscal Year 1985-86.

A. Goal No. 1

To serve all segments of the underedurated adult population in all 66 local school systems of the State.

The adult education program operated in all populated areas of the State in cooperation with 'ocal educational agencies, vocational and technical schools, business and industry, labor unions, health agencies public and private institutions, institutions for the handicapped, manpower and training programs, and other public and private agencies and institutions.

1. Revised Statutes 17:14 and Adult Basic Education Programs

The Adult Education Program is designed to provide academic education for those adults who are 16 years old and above with less than a high school education, and emphasizes decreasing the illiteracy rate in Louisiana.

During the fiscal year 1985-86, 49,461 adults were enrolled in the program.

There were 10,371 veterans and nonveterans who graduated with General Educational Development (GED) diplomas. There were 5,276 who completed the eighth grade, and 7,016 were issued upgrading certificates; 689 classes were conducted in populated areas of the State. In total, there were 298 R.S. 17:14 classes, 164 ABE classes, and 227 combination classes. (See Appendix 6.)

In the ABE and R.S. 17:14 programs, 36,182 adults were retested. The average initial to t score was 8.6, and the average final test score was 10.2. The average grades elevated were 1.6 per 77.2 hours of attendance at a rost of only \$1.67 per hour of instruction. The average cost per student participation was \$130.23 in 1985-86.

In the R.S. 17:14 Program, the total enrollment was 33,521: the total hours of student attendance were 2,450,415: the average cost per instructional hour was \$1.96, and the average cost per student enrollment was \$143.05.

In the ABE Program, 15,940 students enrolled; the total hours of student attendance were 1,368,445; the cost per instructional hour was \$1.20, and the average cost per student enrolled was \$103.27.

The instructional accomplishments were attained through individualized instruction, including the use of diagnostic profile and prescription sheets related to specific objectives established by the adult student and adult instructional personnel. Individualized instruction based on adult needs was provided in all parish programs. After the students' strengths and weaknesses were determined by various measuring devices (such as informal tests and informal interviews), prescriptive plans of instruction were formulated. Placement was determined. Objectives were then set up, and the appropriate learning activites were assigned.

2. Materials and Instruction

All adult education classes conducted in populated areas of the State used a variety of instructional materials. In keeping with the abilities and needs of the students, instructors continued to use different methods and techniques to facilitate learning. The instructional accomplishments were attained through individualized instruction, including the use of diagnostic profile and prescription sheets related to specific objectives established by the adult student and adult instructional personnel. Individually prescribed instruction based on adult needs was provided in all local educational agencies. After the students' strengths and weaknesses were determined by use of various measuring devices, such as informal tests and informal interviews, prescriptive plans of instruction were formulated for each student. Placement was determined. Objectives were then established, and the appropriate learning activities were assigned.

All adults enrolled were provided the opportunity to participate in a variety of formal and informal APL learning activities geared toward a better knowledge of home living. social adjustment, cultural awareness, banking, government and law, consumer economics, community resources, health, and fundamental economics. In the class of basic education and ungraded participants, APL continued to be emphasized to a greater extent than for classes in which adults on the secondary

level were enrolled. Basically, the secondary education students were interested in studies related to the five areas of the GED test.

Learning experiences in the areas of consumer economics, governmental law, and community resources were major parts of the program for senior citizens and were offered to the GED students who showed a need for APL instruction.

Lessons continued to be supplemented by resource persons who were brought in to make presentations and to discuss pertinent issues.

Following diagnostic testing, IPI's were developed which form the basis for instruction and evaluation. Counseling and progress reports were provided at intervals throughout the year.

3. Rural Classes

Statewide classes conducted in public schools, churches, learning centers, mini-centers, and other cooperative programs, enrolled 23,536 adult students with GED referrals totaling 5,686. These classes, Revised Statute 17:14 and ABE, stressed literacy and basic coping skills in addition to the GED program.

To meet the diversified needs of students in rural areas, activities included the use of resource persons from the State and community that provided valuable information relative to the Adult Performance Level (APL), everyday coping skills, the names and functions of agencies and public services with which students were not familiar.

4. Reach and Teach

As in the previous year, the Reach and Teach program continued as an outreach program sponsored by Southern University and the State Department of Education to provide tutorial services in basic literacy instruction to undereducated adults and youths. Reach and Teach, a volunteer program, enlisted community leaders to teach illiterates and functional illiterates on a one-to-one basis in four school systems in the State of Louisiana. The four school systems which are directly involved in coordinating the Reach and Teach literacy effort at the local level are Natchitoches, Jefferson Davis, Morehouse, and St. Landry Parishes. Because of limited funds, Reach and Teach could neither be expanded in the communities served nor expanded to other populated areas of the State.

Each program was designed to meet local needs. The major thrust of the instructional activities was basically the same and was directed through developed, prescribed programs of study for each adult student. Each student was provided courses of study in reading, writing, .nd mathematics. In addition to these basic courses, a high level of consumer awareness information was offered to improve conditions of day-to-day living.

The <u>New Streamlined English Series</u>, which employs the Laubach method, was used with other instructional materials.

The major thrust and primary objective of the program continued to be the motivation of a one-to-one private tutorial process.

The program reached and upgraded 144 adults at the eighth grade level and below. The majority of the students taught were elderly adults. Students were tutored in their homes, masonic lodges, jails, recreation centers, and in schools.

The staff consisted of a program director, four part-time coordinator tutors, and 16 volunteer tutors.

5. <u>Baton Rouge Catholic Deaf Center: Adult Education Courses</u> for Deaf People via Telecommunications

Adult education courses for deaf people via telecommunications (TDD) continued to provide reading and consumer education skills for deaf adults living in the greater Baton Rouge area. The project was designed to upgrade literacy levels among deaf adults whose primary language is American Sign Language and for whom English is a second language.

Furthermore, the project attempted to assist deaf adults in adjusting to and functioning more ably in today's society, and to help foster better communication between the deaf community and the hearing community.

The lessons were composed of English grammatical skills, simple math, consumer news information, and comparative shopping skills. Material and content for the lessons were derived from local and national news programs, current events from local newspapers, Louisiana history and geography, the Baton Rouge public library, legal news reports, and other pertinent information published for the hearing impaired. During the past year, simple math skills and useful medical information were incorporated into the lessons.

the program used telecommunications devices for the deaf (TDD's) and telephone lines as a means of communicating with the client. To participate in the program, the client dialed a phone number located at the St. Francis PeSales Center for the Deaf In turn, the client received on his/her TDD a 10- to 12-minute lesson complete with a work assignment in written English, math or consumer education. These lessons were offered seven days a week, 24 hours per day. Written English was offered on Monday through Thursday. Consumer education and math were offered on Friday through Sunday. Additionally, clients nct having access to TDD's but wishing to participate in the program could do so by receiving the leaders from the Deaf Center by mail. The assignments for written English required approximately one-half hour to complete. Math and consumer education lessons were followed by suggested practice work to do in the home.

The lessons were compiled and written by an assistant who is also a skilled TDD operator. The lessons were prepared for transmission by recording them into tape through a specialized TDD answer/phone system. The lessons were also typed and duplicated for mailing to clients who requested them. Classes in American Sign Language and Deaf Awareness were offered throughout the year at the Deaf Center. These classes provided an opportunity for persons working with or interested in hearing impaired individuals to develop and improve their communication skills. Additional classes in First Aid and Cardio Pulmonary

Resuscitation (CPR) were offered to any interested Deaf and Hearing Impaired adults in the community. This course was offered by a certified instructor who is proficient in American Sign Language.

The target population consisted of approximately 100 deaf adults 20 years of age and above. The number of individuals targeted was based on the average number of hearing impaired persons per 100,000 of the general population as well as the factor that more deaf people settle in the vicinity of the State School for the Deaf.

Recruitment of clients was accomplished through public service announcements, the St. Francis DeSales newsletter, and the Deaf Center's mailing list.

The major objective of the program, to upgrade literacy levels among deaf adults, was approached through the English, math, and consumer education lessons transmitted via TDD. The subject matter of each lesson was chosen so as to assist the client in functioning better in today's society.

This past year the Deaf Center mailed a questionnaire to those who regularly receive the lessons by mail. There was a 37 percent return of those mailed. The most frequent suggestion from the clients on the questionnaire advised the instructor to include comparisons of English sentence structure with American Sign Language, and more information on diet, nutrition, and health.

During the course of the program, the center's answering machine developed an irreparable breakdown. Consequently clients were unable to receive telephone lessons for 14 weeks. The problem was temporarily resolved by mailing the lessons to all Baton Rouge clients on the center's mailing list. An emergency budget request was made to the State Department of Education to allow the Center to adjust its budget in order to purchase a new answer-phone machine. The request was granted for half the cost of a new machine. Despite these technical difficulties there were 485 calls for lessons and an unknown number of attempted calls which were cut off by the problems in the machine. Since November, the taped messages had to be condensed to shorter lessons. The lessons from the previous tapes had to be reworked to fit into the new machine. The procedure continued until February when the new machine began to present problems. It was decided that the lessons would be better received and understood if they were sent out in the During the month of February, the lessons were then mailed to all those Deaf listings on the Center's mailing list. These mailouts continued until June.

Feedback from some of the recipients indicated that the lessons were better understood, giving the client more time to read and study them.

The program appeared to be successful while the TDD machines were being used. Later, as the lessons were mailed out on a regular bais, feedback from clients increased as well as

positive input in the form of suggestions for future lessons.

6. Plantation Education Program, Inc.

The Plantation Education Program, Inc. (PEPI) helps adults to help themselves by providing them with basic literacy skills and/or by assisting them to further their education. Therefore, PEPI's basic goal is to reach out to nonreading and undereducated adults in south central Louisiana (St. Martin, St. Mary, and Iberia parishes) in order to enable them to gain basic reading and writing skills or to qualify for the high school equivalency diploma.

Funded by the Bureau of Adult and Community Education of the Louisiana Department of Education, PEPI reached isolated adults, particularly in rural areas or in less affluent sections of the adjoining towns in the tri-parish area.

Because of drastic funding cuts and reduced personnel, PEPI was forced to set more restricted and manageable objectives for FY 85-86.

Through continued recruitment efforts a total of 105 GED applicants and 85 nonreading adults registered for PEPI's programs. These students were instructed in private homes, in the public library, or at the PEPI adult education center, St. Jude Hall, in New Iberia. A second center, St. Pius X Hall, was opened in another section of New Iberia near a low-income housing project, but because of small enrollment, it was discontinued after the first month; the remaining students were able to enroll at St. Jude Hall. Because of funding cuts, PEPI

was unable to provide personnel to serve the 30 adults on the plantations in the Franklin area. Classes were planned to be taught twice a week on the plantations, but increased enrollment in the New Iberia area plus the loss of one automobile for transportation necessitated that classes be conducted at the New Iberia center four days a week.

Despite funding cuts and decreased personnel, two full-time professionals and two part-time paraprofessionals were able to accomplish the following results, with the help of 40 trained volunteers: (1) There were 165 adults enrolled, and 20 were recommended for the General Educational Development Test (GED). There were 30 students on the waiting list. The average cost per student hour of instruction was \$1.27.

Recruiting new tutors and students through church announcements, newspaper notices, and radio public service announcements was the primary method of participation in International Literacy Day. With the help of two summer volunteers who assisted with door-to-door recruitment in a cargeted area of Iberia Parish, announcements were carried in local churches, on radio stations, and in local papers. PEPI's activities were also described in circulars posted in libraries and distributed at shopping centers.

To meet the objective of conducting two or three tutor-training workshops for a minimum of 30 new volunteer literacy tutors, PEPI conducted three Laubach literacy workshops, certifying 48 new volunteers: 12 in October 1985, 20 in

January 1986, and 16 in July 1986. These workshops were presented by a team of three trainers.

The objective to publish four newsletters to be sent to 200 friends, supporters, and cooperating agencies was accomplished. PEPI's newsletter, Reaching Out, communicates the needs and activities of the organization and arouses awareness of the severe problem of illiteracy in this area as well as all over the United States. Because of budget cuts and accompanying contraction of services, Reaching Out was published only three times this year.

Cooperation with local agencies was maintained. PEPI continues to cooperate with other agencies as follows:

Bureau of Adult and Community Education--PEPI received its regular reimbursements and made its monthly reports; a representative of the Bureau visited PEPI and found much merit in the program.

Louisiana Association for Public Community and Adult Education (LAPCAE)--PEPI maintains membership in good standing with this state organization for adult education and exchanges newsletters with it. Two staff members of PEPI received scholarships from LAPCAE this year.

Iberia Parish Adult Education Department--PEPI registers its GED applicants with this department which administers the GED examination.

Operation Upgrade (Baton Rouge), Operation Mainstream (New Orleans), and Volunteer Instructors Teaching Adults (V.I.T.A.) (Lafayette)--PEPI shares with these literacy groups which have formed the Louisiana Coalition for Literacy.

New Iberia Public Library--The library provides a special section of reading material for low-level adult readers and consults PEPI on acquisitions for this section. The library provides space when requested for tutors to meet their students and recently submitted a proposal for a grant for literacy which will enable PEPI to continue its services to the nonreading adults in the area.

New Iberia Social Service Center--The Center helps persons referred to them for basic assistance in paying bills, buying food, etc.

Governor's Office for Elderly Affairs--S. Alice Macmurdo was a member of the Board which planned the production of literacy instructional tapes. Another staff member and a PEPI student cooperated in the videotaping of two segments. The entire Laubach literacy workshop for helping the elderly and others consists of 24 videotaped segments.

International Rehabilitation Agency--PEPI accepts referrals from this source.

Project PLUS--PEPI cooperated with this national effort to publicize the problem of national illiteracy by submitting names of students who could be used in this project on national television in September 1986.

Although PEPI had no specific opportunity to cooperate with the following agencies this year, PEPI is always available and willing to work with them when help is requested or when PEPI's students need special assistance.

Iberia Parish Jail
Iberia General Hospital
New Iberia and Franklin Councils on Aging
Acadiana Farmworker Legal Aid Program
Southern Mutual Help Association
Franklin Public Library
Teche Action Clinic

The goal of maintaining contacts with the local press and getting at least one human interest story on PEPI published in The Daily Irenian was attained.

PEPI continued to maintain a good working relationship with the local paper, <u>The Daily Iberian</u>, which published a three-part feature on PEPI and the Laubach literacy method. The paper also published regular announcements of workshops, through which there was publicity to help PEPI reach most of its prospective tutors. The same is true of the St. Martinville paper.

PEPI's director contacted the United Fund authorities to request a grant to be used for hiring a paraprofessional to work on the plantations. United Fund notified PEPI that it did not have the funds to help because of other obligations.

PEPI attempted to obtain two or three VISTA slots for local tutors in the St. Martinville and Franklin areas. After contacting the director of VISTA and obtaining information and

applications, the director learned that PEPI was ineligible for VISTA slots because of insufficient funding.

Despite some setbacks, PEPI accomplished the majority of its goals for the year.

7. Hope House

The Hope House Adult Learning Center in New Orleans provided the residents of the Fischer Projects, St. Thomas Housing Development, Iberville Housing Development, and the surrounding neighborhood with adult education opportunities.

The goal to increase the number of students with 12 or more hours by 50 was almost met. Two hundred forty-three students were enrolled in the program during fiscal year 1985, as compared with 291 during fiscal year 1986. The enrollment goal was short two students. Besides regular announcements in the Hope House Bulletin and signs posted around each of the housing developments, other activities that helped retain students were phone calls to students who missed a full week of class, followed up with a postcard.

The goal to increase the number of GED graduates was not met. There were only 12 GED graduates in comparison with 24 the previous year. Fewer students enrolled at the high school level and this year appeared to be a building year. It is hoped that next year will reap the results of this year's efforts. A larger number of students who enrolled this year were educationally handicapped. The majority of the students who entered the program were tested at the fourth or fifth grade level even though most of them had completed the tenth grade.

Many of these students felt it took too long to omplete the adult education program, became frustrated, and dropped out of the program, despite the efforts of the counselors and teachers who encouraged students to continue efforts to improve their education.

Another reason for the high rate of attrition was that the neighborhoods are rife with tragedies and crime. When students failed to report to class for a week, follow-up was conducted by phone or by a postcard encouraging them to return to class. Counselors worked with students to place them in jobs and in training programs and tried to help students overcome the apathy induced by the poverty and crime in their surroundings.

At the Fischer Project, a survey was conducted to determine the residents' interest in adult education, the most convenient time to conduct classes, and problems that these adults might encounter in attending class. The survey made adults in the development more aware of the existence of the program. The center at Fischer Project got off to a slow start. The adult education staff had to show the adults that they were seriously interested in serving them, and that the staff really had something to offer. A staff member worked with the community on other matters, plus coordinated efforts with the medical clinic across the street. These efforts paid off in student enrollment at the center, but it remained a difficult task to keep the students enrolled long enough to seriously affect them

educationally. During the second semester, plans were to hire a resident of the Fischer Project as a paraprofessional to assist with the program, but because of pending budget cuts, this plan was not implemented. Additionally, the number enrolled in the class did not warrant a third person at the center.

The St. Thomas Center conducted night classes three times a week, from 6:30 p.m. until 9:00 p.m. This effort was designed to reach out to working adults who were unable to attend day classes. Attendance varied widely for these evening classes. Weekly Writing classes were instituted at the St. Thomas Center—in recognition of the future writing requirements of the GED test. Small group sessions for students in proximate preparation for the GED test were not feasible because few students reached the GED instructional levels at the same time. Therefore, students were provided one-on-one tutoring as they reached the GED instructional level.

At the Iberville Center, weekly classes were conducted in science. The Iberville Center also began the use of the Mind Program—a machine-based reading program which was well received by students and improved their reading skills at a faster rate than the conventional methods. The store front nature of the Iberville Center with showroom windows facing the sidewalk on a busy pedestrian street was sufficient advertisement for many adults.

Social and economic situations in the housing developments made it difficult for students to work consistently on their

education. Other programs at Hope House periodically helped people through rough times, but often the magnitude of their problems overwhelmed the students.

Each of the three centers conducted an eacht-week summer program. Attendance was good, but not so good as anticipated. Many new students registered, and many old students discontinued. Many of these students dropped out because their children were out of school for the summer.

Enrichment activities continued to be an important part of life at the adult learning centers. Presentations included the following: the voting process, sex and its relationship to poverty, drugs and drug abuse, family planning, radioactivity and radiation, nuclear war, poetry writing, Martin Luther King, AIDS, and the cost of utilities. Field trips were provided to the Audubon Zoo and the State Capitol; a picnic was held at Audubon Park; a march was conducted to celebrate Martin Luther King Day, ending at the Superdome; and an Up With People Concert was attended.

Graduation ceremonies were conducted in conjunction with the Gertie Keiffer Center, and one of the graduates gave the opening address. Also, at the end of the year, each center had a party and certificates were issued to students. Finally, during the school year, Hope House published its annual poetry book which contained contributions of over 20 students and several staff members. At each center several classes were conducted on the art of writing poetry in preparation for publication.

8. Operation Upgrade of Baton Rouge, Inc.

Operation Upgrade of Baton Rouge, Inc. celebrated 20 years of providing literacy services to the undereducated adult in the Greater Baton Rouge area. Emphasis continues to be the education of those adults who are 16 years of age and older with reading skills below the sixth grade level. This nonprofit volunteer agency is partially funded by Capital Area United Way and the Louisiana Department of Education.

During FY 1986, 386 students were enrolled in the program. Of the total number, 201 were enrolled at grade levels 0-3; 28 on levels 4-5; 19 on levels 6-8; and 138 were English as a Second Language (ESL) students. However, 24 fewer students participated this year because of lack of jobs, transportation, and other problems. Therefore, in spite of all efforts, the goal to increase services to undereducated adults was not met.

The instructional design of the program was and is basically one-to-one tutoring of students by trained volunteers from the community. Volunteers recruited from the surrounding areas are trained to be reading tutors. Efforts to streamline training sessions using Laubach Way to Reading materials as a primary source was successful. The training for literacy tutors was provided in 10 hours. This was the minimum for Laubach certification and worked well with tutors. Large quantities of materials developed by other publishers were incorporated in the training program. It was felt that this would enhance the capatilities of persons interested in teaching illiterate and functionally illiterate adults to read and write.

The goal to present 10 tutor-training workshops during the year was met. Ten workshops were conducted and 194 new tutors were trained. Two hundred thirty-six tutors participated in the program during the fiscal year. The literacy effort was expanded by the Upgrade staff who conducted workshops in Morgan City, Houma, Jonesville, Bossier, and Natchez, Mississippi. There was total staff commitment and support for these out-of-town efforts.

A variety of activities was conducted to recruit volunteers and to identify and motivate the adult learner. Some of these activities were conducted through the media, churches, businesses, industry, students and friends. These components also provided valuable support in the areas of continuance, communication, and publicity within the target communities.

More than 54 percent of the students were 25 to 44 years old. The 16 to 24 age group represented the second largest group of participants, approximately 26 percent. Data indicate that students represented five parishes. The results derived from inquiries, assessment of potential students, and completed applications continue to be of tremendous help in student evaluation. Problems related to unemployment, transportation, child care, minor health problems, as well as fear of another failure, were drawbacks to active participation. Motivation of students and counseling relative to realistic goals that were based on individual efforts were important factors that had to be applied on a continual basis.

Record keeping and reporting was a challenge as the staff worked to gather information from the large volunteer support staff. The high turnover among students and tutors presented problems when assignments were made. Budgetary constraints were not conducive to expansion of any phase of the program. To date, none of the efforts to generate additional funds through proposals was fruitful. However, the board and staff are dedicated to continuing to seek ways to provide the financial support needed to serve the undereducated adult--especially the illiterate and functionally illiterate adult.

Operation Upgrade's visibility remained high. Highlights of staff participation with other groups during the year included: 1) inservice training for tutors and students in cooperation with the Morning Advocate and State Times: 2) an appearance on Channel 9, "Morning in Louisiana"; 3) publicity on radio station WJBO, "What's Happening?": 4) L.A.P.C.A.E.'s conference in Alexandria, Louisiana; 5) Laubach Literacy Action Biennial Conference in Memphis, Tennessee: 6) Governor's Office on Aging/New Orleans Educational Telecommunications (NOETC): 7) consortium (NOETC) on developing a training tape for tutors. The network process was continual. L.S.U. students showed interest in the Upgrade program by tutoring, collecting data, making presentations, and interviewing staff for the radio and student newspaper.

In response to special invitations, staff and board members made presentations to the following: 1) St. Thomas More Parish Renew Group, 2) A religious study group at L.S.U. Christ the King

Student Center, 3) May Fellowship celebration of Church Women United, 4) Statewide Conference, Services to the Aged of the Governor's Office on Aging, 5) the Education Concer Committee at the Kiwanis Club of Baton Rouge, and 6) the Pilot Club in Baker, Louisiana.

Cooperative relationships with literacy groups, adult education. LAPCAE, school boards in various parishes and the special relationship with East Baton Rouge, Livingston, and Ascension Parish schools were invaluable and paramount to the success of the program. Outreach efforts to other areas are ongoing even though response is slow. Lack of funds prohibits program expansion.

Special plans for a 20th anniversary celebration began early in 1986. The event is scheduled for September 4 and will coincide with the national efforts of ABC/PBS, International Literacy Day, and the Fall series of Tutor Training Workshops. Through these activities, awareness of the need for adult literacy services should be enhanced.

Projections for the next year include: 1) concerted efforts to increase enrollment and provide quality services to our clients, 2) expanded efforts in pursuit of finances for program services, 3) strong advocacy for the eradication of illiteracy in Louisiana, and 4) continued support of friends and public and private agencies to the greatest advantage possible in meeting the needs of the adult nonreader.

9. Target Population

The Adult Education Program continued to increase the number of full-time personnel, and to maintain fu'l-time vocational-technical and adult education classes, and programs in remote rural areas, e.g. literacy outreach programs, special projects, pilot programs, research studies, and innovative instructional approaches.

Academic services for special needs groups were expanded in cooperation with federal and other State agencies, and in cooperation with labor, business, and industry. The results of these activities are summarized below.

| | | | | Numt | <u>ber Ser</u> | ved | _ | |
|------------|---------------------------------------------------|--|-------|------|----------------|-----|------|-------|
| Enrollment | | | 1986* | FY | 1987 | FY | 1988 | TOTAL |
| 1. | Urban areas with high rates of unemployment | | 6,845 | | | | | |
| 2. | Adults from rural areas | | 3,673 | | | | | |
| 3. | Immigrant adults | | 326 | | | | | |
| 4. | Institutionalized adults | | 1,290 | | | | | |
| 5. | Adults with limited English language skills | | 899 | | | | | |
| 6. | Handicapped adults | | 355 | | | | | |
| 7. | Minority groups | | 8,451 | | | | | |
| 8. | Elderly persons | | 643 | | | | | |
| 9. | Receiving public assistance | | 2,283 | | | | | |

^{*} Data reported on DE-524's and Teachers' Annual Evaluation Reports, 1986.

10. Continuation of Expanded Literacy Outreach

Literacy outreach activities established in populated areas were continued from the previous year. These expanded literacy outreach activities were instructional programs designed to reach adults for whom the regular adult education programs were not easily accessible. DeSoto, Tensas, Red River, East Carroll, East Feliciana, Madison, Operation Reach-Out, Adult Continuing Education, Gertie Keiffer Memorial Adult Education Program, Central City Adult Education Program, New Orleans Catholic Deaf Center, Operation AACE, Project Read, Reach and Teach Program, St. Paul Adult Learning Center, Plantation Education Program, Inc., Hope House, Baton Rouge's Operation Upgrade, and Baton Rouge's Catholic Deaf Center constitute the programs. These extended programs enrolled more tha. 2,563 of the least educated and most in-need adult students.

Additionally, the ABE and R.S. 17:14 programs' efforts enabled 1,020 adults to complete the fourth grade, 5,276 to complete the eighth grade. 1,089 elderly adults to be served, and 8,075 illiterates to be upgraded in the Adult Education Program.

Descriptions of outreach activities included classroom instruction, training volunteers and paraprofessionals in one-to-one instruction (primarily reading), tutoring, and staff development. Products developed included (but were not limited to) student interest inventories, basic workbooks, newsletters, and brochures.

Evaluations were conducted through monthly progress reports, bimonthly staff sessions, assessment of strengths and weaknesses of tutors, informal teacher-made tests, criterion referenced tests, standardized tests, and on-site visitations.

Target populations were farmworkers and other isolated adults in rural areas, urban adults in high unemployment areas, and institutionalized adults. (See Appendix J.)

11. Special Needs, Jails, Hospitals, and Mental Health

Several parishes continued to expand academic services through their special needs programs in cooperation with federal and other State agencies. In these special needs programs. 6,021 adults were served, and instructional materials were designed to meet the immediate needs of the adult learner.

12. Parish Jail Programs

Local supervisors, in cooperation with sheriffs, provided adult education for offenders in parish and State correctional facilities to upgrade them in basic and secondary education and to enable these adults to obtain a high school diploma through the General Educational Development (GED) program. The overall purpose of these activities was to provide these adults with the necessary academic skills to enable them to enter vocational training while incarcerated, to help them obtain and keep a job upon release into society, and to become more effective and productive citizens through academic and personal development.

Classes were conducted year-round in six prisons and an average of eight months in 18 others. Class hours averaged approximately eight per week. More than 1,685 inmates were served during the year, and 291 were rolommended for the GED tests. (See Appendix D.)

13. Hospitals, Department of Mental Health, School for the Deaf, Parish Government and Other Cooperating Agencies

Parish supervisors of adult education in cooperation with officials from city governments, institutions, and hospitals established adult education classes that reached 4,336 students with special needs. (See Appendix E and Appendix F.)

B. Goal No. 2

To improve overall adult education services through the development of additional full-time adult education programs, employing full-time professional adult education supervisory and instructional personnel.

The Bureau of Adult and Community Education maintained full-time programs and increased full-time instructional personnel during FY 1986. There are 48 full-time learning centers operating in 33 parishes and 26 vocational-technical centers operating in 25 Parishes. (See Appendix G and Appendix H.)

To meet the instructional needs of adults, 1,030 persons were employed in the adult education program. These employees included 23 full-time administrators, 69 part-time administrators, 102 full-time instructors, 96 full-time paraprofessionals and support personnel, 572 part-time teachers, 168 part-time counselors and support personnel.

1. Full-time Adult Learning Centers

As in the past, enrollment of adult education students continued to increase in learning centers during FY 1986.

During this session, 39,437 (80%) adults were enrolled in parishes with learning centers; 4,427 (84%) of the enrollees completed the eighth grade; and 10,148 (83%) were recommended to take the GED tests. (See Appendix G.)

2. Year-Round Daytime Classes and Learning Centers

In a continued effort to extend educational services to adult students throughout the year, 48 full-time learning

centers, four mini-centers, and several special daytime programs were operated on a year-round basis. In these programs, specially designed instructional materials and reading programs were designed, established, and maintained to meet the unique needs of adult students. The efforts, which were initiated at the State and local levels, provided a greater opportunity for these adults to achieve their educational goals. (See Appendix G. Appendix I. and Appendix J.)

3. Additional Full-time Services in Selected Populated Areas/Parishes

Vocational-Technical Adult Education Centers

Twenty-six full-time daytime cooperative vocational-technical adult education centers were established in 25 parishes to upgrade academic skills of special needs groups.

The adult education program served 6,120 enrollees.

Of this number, 1,603 were recommended for the GED tests,
and 1,912 completed the eighth grade.

As in the previous year, a majority of the students who enrolled simultaneously attended vocational-technical classes: and those students who were separated from the adult education program entered a vocational training program. (See Appendix H.)

4. Submission of Plans and Requests for Allocation of Funds, Monthly Reports

(a) State

One hundred percent of the administrators in

educational agencies operating adult education programs submitted objectives and activities for their programs. These plans provided data which indicated planning and evaluation processes, efforts to increase/maintain enrol ment of adult students, months of operation, and organization and/or coordination with other agencies. (See Appendix I.)

Monthly reports were submitted to the State office to justify expenditures on a month-to-month basis. Bulletins and the Louisiana State Plan for Adult Education Program 1985-88 were issued to local supervisors to assist in the overall operation of programs. (See Appendix K.)

Of the 66 local educational agencies operating adult education programs, 100 percent were evaluated on-site to determine the extent to which objectives of the program were accomplished. Other information examined was student attendance, reporting records, personnel contracts, and training experience of teachers. (See Appendix L.)

(b) Local Level

Teachers' monthly payroll reports were submitted to parish superintendents to justify students enrolled, student hours, teaching hours and salari (See Appendix M.) Travel vouchers, time sheets, and program evaluation forms indicated all local supervisors visited classroom sites on a regular basis for the purpose of supervising t e overall program operation. (Refer to Goal No. 1, subsection 2, for Materials and Instruction.)

C. Gnal No. 3

To expand the delivery system of adult education through outreach efforts involving cooperative agencies, organizations, and institutions serving adults who reside in rural areas and urban areas with high rates of unemployment, those with limited English-speaking skills, institutionalized adults, immigrants, and others with special needs.

 Technical Assistance and Support Services Provided by the State Educational Agency to Local Programs of Instruction

State meetings for adult education supervisory personnel and members of the Participatory Planning Task Force and Adult Education Advisory Council were conducted by the Pureau of Adult and Community Education. The purpose of the meetings was to discuss implementation of activities related to:

- (a) Budget
- (b) Transfer Policy
- (c) Personnel Cuts
- (d) Special Projects
- (e) Status Report on Goals, Accomplishments, and Objectives
- (f) GED Status Report
- (q) Other important issues that determine the direction and success of adult and community education in Louisiana.

(See Appendix N.)

2. Lafayette Parish Cooperative Jail Project, Phase II

The purpose of Phase II of the Lafayette Parish Cooperative Jail Project was: 1) to prepare inmates who have the educational background to serve as tutors, 2) to prepare inmates to

be eliqible to take the GED test, and 3) to teach life-coping skills so that students may better function in society upon their release.

In order to serve a larger number of adults, newly trained inmates were paired with experienced tutors to work with at least three students who had less than a high school education and who were functioning at about the same academic level.

Only inmates functioning at the eighth grade level or above, as determined by the California Achievement Tests (CAT), were taught by inmates under the supervision of a professional. Those below that grade level were tutored by volunteers from Volunteer Instructors Teaching Adults (VITA). Approximately 400 inmates were prepared for the GED test while being taught life-coping skills.

The different phases of the project were awareness, training, recruiting, and application. Complete records were maintained with results compiled and included in the final report.

The request to continue the program was based upon the success of Phase I. During the first year, 113 students received the GED diploma and approximately 400 inmates participated.

Additionally, a class for trustees at a half-way house was continued so that all eligible inmates could take advantage of the program.

3. <u>Judicial Alternative</u>: <u>Adult Education or Jail--Phase I</u>

This project (Phase I) addressed the problem of researching the many avenues available within East Baton Rouge Parish to

determine which agency/agencies could provide specific services necessary to habilitate and educate offendors.

A quidebook was compiled and disseminated to the judges within the 19th Judicial Court for their use as pre-evaluation or concurrent evaluation sources to offer services to the offender. The guidebook describes the facilities and opoportunities available from the community agencies, the criteria necessary for the offender to receive services and procedures to follow in awarding these services.

For additional access, a computer program was designed and implemented for use by the judges within the 19th Judicial District Court. This program delineates the various agencies serving the needs of the offenders within the specific categories of their needs. If a judge wants to determine which agencies serve drug abusers, the program itemizes all agencies within the parish and gives detailed information about the facility.

4. Community Education

Community education is a process and a program designed to meet the needs and interests of the of all ages in a community. The process involves the formation of community councils to ensure citizen involvement in program planning. It also involves community surveys to determine the needs and interests of the community. The community education process makes use of existing human and physical resources to meet the community's needs. Cooperation and cooperation between

agencies in providing services to the community are also a vital part of the community education process.

Community education programs use school buildings or other convenient locations to offer a variety of educational, vocational, recreational, social, and cultural activities for a community. The use of the school building is extended beyond the normal operating hours to include nights and weekends.

During the 1985-86 fiscal year, several school systems in Louisiana continued to operate community education programs. Community educators developed cooperative relationships with various agencies, institutions, and organizations in order to implement community education processes and programs. The groups served in several capacities, providing advice and support to the program, offering the use of their facilities, and other such services. In return, these groups were also served by the community education program.

Indications are that community education will continue to spread to additional local school systems in the State. (See Appendix O and Appendix N.)

5. Business and Industry

Business and industry continued to refer applicants to the adult education program to upgrade skills prior to employment, when needed.

Plant representatives continued to cooperate and meet with local adult education personnel to coordinate activities for their employees.

Additionally, businesses and industries in Louisiana were contacted by local adult education personnel and asked to submit needs for on-site classes and/or the projected number of employees to be referred to adult education programs so that plans and requests for funds from the State educational agency could include these special needs groups. (See Appendix F.)

6. GED Videotext Series

The Bureau of Adult and Community Education, in cooperation with Louisiana Public Broadcasting, sponsored the GED Videotext Series on public television. This is a series of educational programs that focuses on basic skills development in the areas of reading, mathematics, and English grammar. The series is designed to be used by adults who do not have a high chool diploma and who are preparing to take the GED test. The series is broadcast statewide.

In order to make the public aware of the series, the Bureau printed and distributed approximately \$2,000 copies of a flyer, "GED TV Stries," which thoroughly describes the availability of the series. The flyers were distributed to the public-at-large through various agencies, institutions, and organizations in this State. Groups were asked to display the flyers in the reception areas of their offices to make them available to their clientels and the general public. Groups which received the

flyers are (1) local substance abuse centers, (2) district vocational rehabilitation offices, (3) parish Offices of Family Security, (4) public libraries, (5) state agency offices, (6) parish councils on aging, (7) parish job service offices, (8) district youth services programs, (9) adult and community education supervisors, (10) Community Action agencies, (11) business and vocational-technical schools, (12) GED testing centers, (13) state prison facilities, and (14) Employment Security offices.

The series has provided a means for people who are homebound because of illness or disability, the elderly who do not have transportation, women with small children at home, and others to prepare to take the GED test. (See Appendix P.)

7. Job Training Partnership Act (JTPA): Acadia, Beauregard, Jefferson, Lafourche, Rapides, St. Mary, St. Tammany, Tangipahoa, Tensas, Terrebonne, Washington, and Webster Parishes.

During the fiscal year, local adult education services were expanded in several parishes through cooperation with the Job Training Partnership Act Program (JíPA). In Acadia Parish, one of the goals of the adult education program was accomplished because of funds received through a Job Training Partnership Act grant. Splendid cooperation has existed between the St. Landry Police Jury and the Acadia Parish School Board Adult Education program.

The JTPA project provided for expansion of adult education services. Computers, purchased as part of the project, were used during the school session and were used during the summer for the Acadia Parish's Community Education program. The computers were used during inservice programs for public school teachers in Acadia Parish.

The JTPA project at the Adult Education Center in Crowley has been funded for a second year. JTPA grants for support of the Learning Center in Rayne and a GED preparatory class in Egan were received. The grants, which provide equipment and materials, will enable further expansion of adult education services at no cost to the adult education program. Community Education computer training classes were taught during the evenings at the community education site.

Beauregard Parish received JTPA funds near the end of the school year. The funds were used to purchase equipment and materials to upgrade instruction at the adult education center, as well as throughout the parish. Items which were nurchased included the following: two computers, three printers, two VCR's with monitors, and blank video cassettes.

The center staff will record the televised GED lessons and distribute them to teachers in the part-time classes. The two new computers will be added to the lab which currently has six computers in use every day. Students are scheduled at 30

minute intervals twice a week. Friday is used for make-up sessions and printing skill analyses for the teachers.

The new computers will provide more opportunities for computerized skill analysis, remediation prescriptions, drill, and GED test practice. Several worktexts and one ne. software program have been ordered to expand the curriculum for both ABE and GED students. Plans are under way for continued cooperation between Beauregard Parish Adult Education and JTPA. Projected plans give priority to improving and expanding the jail program.

During the 1985-86 school year the Jefferson Parish Adult Education program enrolled 7,020 students and graduated 2,026 students. JTPA funds allowed the program to maintain its level of offerings to adult students when state funding was reduced.

In Lafourche Parish, the establishment of a class in the black community in the Thibodaux area was achieved through the JTPA program. The class continued through August.

Rapides Parish pursued a program through JTPA for the purpose of placing work release prisoners in jobs. This program was unsuccessful because of the work release program already in place at the jail which obtained more qualified prisoners, and because of the transfer program within the jail. The JTPA program could not pay salaries and was in competition with other JTPA programs which could pay salaries.

Students this year. Adult education students had to qualify under strict minimum quidelines and were placed in jobs within the community. Salaries were paid to these students' for 11 weeks. The type of job placement was determined by the students' skills. Clerical and sales jobs as well as positions in fast food outlets were available. This program was highly successful with a number of adult education students being placed.

In St. Mary Parish, a JTPA class conducted in cooperation with adult education at the Morgan City Adult Learning Center provided a computer assisted class for 33 students. Ten students from the class completed GED requirements.

In St. Tammany Parish, the Youth Services Coordinator Project through JTPA was effective. The program channeled unemployed youth into adult education classrooms and helped adult education students find jobs.

The Tangipahoa Parish adult education program in cooperation with JPTA developed a course of Basic Academic and Employability Skills for JFPA clients. The adult education center staff was responsible for recruiting and enrolling clients for the program. Potential clients were referred to the local JTPA counselors for services and to ensure that the recruit met JPFA eliqibility quidelines. In addition to basic skills and GED instructional programs, JFPA clients were provided with the opport nity to participate in a unique employability and survival skills program. The competency based

video program covers the five life skill areas of consumer economics, occupational knowledge, health and safety, community resources, and government and law.

Representatives from six parishes visited the program and plan similar programs of their own. In addition to the Basic Academic and Employability "kills program, comprehensive GED preparation was offered to JTPA work experience clients. JTPA counselors visited the adult education classes regularly to recruit students for a variety of JTPA programs.

In Tensas Parish the JTPA project attracted women. Most were single-parent, heads of household who desired employment and improved life styles, but who needed increased literacy and life coping skills.

Terrebonne Parish received JTPA funds to purchase computers.

The Washington Parish adult education supervisor submitted a proposal to the JTPA office and received funds to hire a reading specialist and purchase seven computers, software, and other instructional materials and supplies. The grant was justified because 75 percent of the students entering the program were reading below the eighth grade level. Many students increased their reading grades two to three levels.

Webster Parish, in cooperation with the employment office in Minden, helped many students become a part of the JTPA Job Assistance Program. It allowed students to attend school and maintain a part-time job at the same time.

8. English as a Second Language (ESL)

Sixty-five ESL classes were continued in populated areas of the State. In those classes, 1,974 adults were served, and 13 were recommended for the GED tests. (see Appendix C.)

(For outreach efforts involving cooperative agencies organizations, and institutions serving adults who reside in rural and urban areas with high rates of unemployment, institutional adults and others with special needs, refer to Goal No. 1, subsection 3-13, and Appendix E.)

D. <u>Goal No. 4</u>

To improve the instructional quality of local adult education programs.

1. Evaluations Performed During The Reporting Period

All local education agencies operating adult education programs were directly evaluated to determine the extent to which the objectives of the program were accomplished. Some other elements evaluated were student attendance, records of reporting, personnel contracts, and training experience of teachers. (See Appendix L.)

2. Bossier: Computer Literacy for Students Enrolled in Adult Education

The Bossier Learning Center received a grant in July 1985 to initiate an adult program in computer literacy.

The basic grant provided for two computers complete with a disk drive and monochrome monitor. Portable tables supplied by the Bossier Learning Center were set up so the computers could be used in the computer classroom or the regular classroom.

Availability of software was researched during the summer in order to have the program established in time for the return of the majority of ABE students in the fall. The brief introduction to computers familiarized adult students with the basic operation of a computer. The students gradually progressed to a computer literacy module, Computer Discovery, produced by Science Research Associates. The computer discovery package is designed to provide exposure to both programming concepts and social issues related to computers and is tailored

to meet the needs of a wide range of students. Students who completed the computer literacy program could integrate work with the computer into their academic program.

Center staff evaluated numerous educational programs to determine their adaptability for adult students. Programs were eventually chosen in the areas of math, reading, and spelling for incorporation into the year's academic program.

The math program selected was Science Research Associates

Computer Drill and Instruction, Levels A-D. The program

evaluated the student's aptitude in basic mathematics and placed
him/her according to his/her skill levels. The student could
progress from his/her aptitude level to the level of competence
required for GED testing in math.

Spelling modules, reading modules, and teacher-made modules were incorporated primarily with lower level students to provide them with basic skills necessary to pursue more advanced classroom instruction. The students also benefitted by hands-on experience with the computer which might enhance their job skills for future employment.

There were three objectives of the computer literacy project. One objective was that the ABE student complete a module on computer literacy. The second was to integrate the computer into the student's educational program using programs in mathematics designed to meet his/her needs. The third was to provide the ABE student with hands-on computer experience.

The objectives were incorporated into the general design of the project. The project began September 4, 1985, and was completed May 26, 1986. After selected students completed traditional enrollment, evaluation, and placement procedures, they were enrolled in the computer literacy project. Each student who met the established objectives was placed into a mathematics drill and instruction program and was allowed to progress at his/her own rate.

Of the 91 students enrolled at the Bossier Learning Center in fiscal year 1986, 40 were chosen for the project. The results were impressive. Instructors felt that the appreciable increase in student attendance in 1986 primarily resulted from the students' interest in working with the computer.

Instructors also reported that the students selected for the computer literacy program progressed an average of 2.7 grade levels as compared with the typical ABE student who progresses approximately 1.5 grade levels per year.

If funding is available, the center staff plans to expand the computer program during fiscal year 1987. Plans include the acquisition of more software, especially in the areas of reading and language. With an increase in enrollment and GED referrals, software incorporating higher levels skill will also be necessary.

3. Adult Literacy Project: Evaluation and Dissemination of Interactive Software to Promote Adult Literacy

Illiteracy remains a serious problem in the State and the nation. More effective approaches for developing basic literacy

skills were needed. The University of New Orleans Adult
Literacy Project developed two series of microcomputer software
to promote reading and writing abilities of illiterate adults.
The project was named a "High Quality Educational Program" by
the U.S. Department of Education and is making preparations for
national validation.

The software uses a language experience approach to develop literacy, encouraging adult learners to use their own experiences and language to input text into the microcomputer. The microcomputer then develops individual practice and reinforcement activities from the student's previous text input, providing highly individualized lessons for each student. Articles describing the software have or will appear in the following national journals: Journal of Reading, Computers in the Schools, The Clearning House, and in the National Adult Literacy Project's Guidelines for Promising Practices.

The goal of the project this year was the final evaluation of the two series of software through field tests with illiterate adults. Multiple evaluations have been necessary to get a large enough number of student subjects because of the high attrition rate this population exhibits.

After successful evaluation is completed, the Joint Discemination Review Panel (JDRP) will evaluate the program for national validation. In validation occurs, the Adult Literacy Project will be invited to apply to become a National Diffusion Project of the National Diffusion Network (NDN).

While Louisiana has a severe illiteracy problem, State funding of the Adult Literacy Project has enabled the development of a new approach to the illiteracy problem and two series of software which have gained national attention. The project will continue to be disseminated through presentation, demonstration, and publication locally, regionally, and nationally.

4. Bienville Parish: Computers Are Here

A study conducted at the Adult Education Center in Bienville Parish showed that the adults of the area were interested in learning by a computer assisted instructional program. Although the adult education services provided during the 1984-85 session were expanded to include many reading activities for adult students, there was a tremendous need for a program that would educate adults in the operation of computers. Through the program, parents could become more involved with their children's progress in the K-12 school system as well as acquire a working knowledge of the computer as a tool for learning.

Project "Computers Are Here" proposed the following: 1) with the aid of the superintendent and other school officials, seek out those adults who would be interested in pursuing their education and working with the computer as a tool for learning; 2) establish a computer room at the Bienville Parish Adult Education Center where new recruits could receive adequate training in using the computer as a learning tool; 3) with the

aid of sophicated instruments, the adult students would be encouraged to learn and expand knowledge on all subjects and to work with their children who are being introduced to the computer in the K-12 program; 4) hold in-depth training for paraprofessionals and teachers who work in adult education: and 5) develop publicity and promotional materials for parish-wide distribution. The program was funded and the local education agency supplied personnel and facilities. All initial goals were accomplished and the program was considered very successful.

5. Computer-Assisted Instruction

In Allen Parish the use of three microcomputers greatly enhanced the instructional program. A computer literacy program was provided for all adult education students at Oakdale Vocational-Technical School. The GED computer-assisted programs were used to supplement instruction for students during the 1985-86 session.

At the Marksville Center in Avoyelles Parish, four Apple computers served as an effective tool for the GED and pre-GED students. The computers offered immediate feedback and sequenced skills in math, reading, and language. The Steck-Vaughn GED 100 Program also helped students pass the GED Tests the first time. All students who completed the skills on the GED 100 Program scored high on the GED Tests.

Bienville Parish computer assisted instruction helped to enhance the effectiveness of the program. All instruction

was designed to meet the educational goals and needs of the population served.

In Concordia Parish all classes were provided with a variety of instructional materials. Two computers were used in the full-time class. The computers proved to be valuable instructional tools. Two new computers were purchased for the part-time classes and additional software was purchased.

The Monroe City Schools used teaching strategies which included the following: 1) individualized instruction with computer assisted instruction as reinforcement, 2) computer literacy instruction for motivational activities, and 3) small group activities using instructional materials from the local system.

Grant Parish made use of the computer in their administrative and instructional activities, which proved most valuable.

The full-time adult education class at the Port Side

Vo-Tech School in West Baton Rouge Parish had an increase in

enrollment over the previous year. The teacher there is

currently taking computer science courses. This year, three IBM

computers were installed at the vo-tech school and are currently

being used by the students.

Of special instructional significance in Winn Parish are the on-g g computer-assisted learning activities in reading, math, language, social studies, and science.

In Webster Parish a computer program was added to the Minden Adult Learning Center for the school year 1986-87. This was the result of a grant received from the Private Industrial Council (PIC) of Northwest Louisiana. The grant will purchase 15 new computers and printers for the computers. The computers will be programmed to prepare students to take the GED Tests and will benefit the reading program at the center.

Finally, during the fiscal year, the adult education center at the River Parishes Vo-Tech School in St. John Parish added computers and television to support the instructional program.

E. Goal No. 5

To promote and expand literacy efforts through adult basic education programs, volunteer groups, and literacy programs to reach the least educated and most in need of assistance.

Over 36 literacy outreach programs were conducted in various parishes to serve those adults least educated and most in need.

Over 184 volunteers served in these programs and in the adult education program.

Literacy Projects for Catahoula, Concordia, LaSalle, Allen, Avoyelles, Evangeline, St. Mary, and Terrebonne Parishes.

In an effort to raise the literacy level, it was proposed that a project director/literacy coordinator be himed to initiate and develop literacy volunteer programs in several parishes in the State.

Intense one-to-one instruction was provided for illiterate adults who were unable to receive these services through the adult education program in Allen, Avoyelles, Evangeline, Catahouia, Concordia, LaSalle, St. Mary, and Terrebonne Parishes. Literacy instruction could not always be adquately provided by an adult education teacher in a partatime class with many students on a variety of levels. Since these are remote rural parishes, many rural residents cannot attend adult a location classes at night. Thus, a literacy outreach program was designed to accommodate hard-to-reach illiterates by providing them with tutors who instructed them at convenient sites and times to support the ABE program's literacy efforts and reduce the illiteracy rate. Operation AACt was conducted in

Allen, Avoyelles, and Evangeline Parishes: Operation Reach-Out was operated in St. Mary and Terrebonne; and Project Read was operated in Catahoula, Concordia, and LaSalle Parishes.

2. Acadia: Voluntéer Teacher-Aide Program

Despite the prevailing economic conditions adult education in Acadia Parish had a banner year. The delivery system was expanded because of a volunteer program initiated during the early spring of 1986.

The number of young adults enrolling in the adult education program in Acadia was almost overwhelming. For the 'earning Centers in Rayne and Crowley something had to be done to accommodate these persons. Providing instruction on an individualized basis to a large number of students was rapidly becoming almost impossible. To solve this problem, additional personnel were sought. A volunteer teacher-aide program partially alleviated the problem. These persons, part of a church sponsored group, were trained to help the professionals at the Adult Education Learning Center in Crowley.

The program enabled the professional staff to prescribe instruction for many more students. The paraprofessionals and volunteer persons could then actually work with those younger adult students who were unable to work independently.

3. Ascension: Volunteer Tutorial Pregram

A tutorial program has been in existence for the last four years. Working in conjunction with Operation Upgrade in ton Rouge, the staff has recruited and trained several volunteer

tutors who tutor students with special needs individually. However, the need for more tutors at this center is critical. It is projected that the tutorial program will be expanded next year. A letter will be sent to all former graduates in hope that some will volunteer to work with the ever-increasing number of low-level students. There is also a need for a specially trained person to work with students in the reading lab. If funds are available, a person can be hired to work more closely with these students during the busy morning hours.

(For other programs which expanded literacy efforts through the use of volunteer groups to reach the least educated and most in need of assistance, refer to Goal No. 1, Reach and Teach, Plantation Education Program, Inc., Hope House, and Operation Upgrade of Baton Rouge, Inc.)

F. Goal No. 6

To promote professionalism by strengthening and supporting adult education certification requirements for employment.

In 1986, there were no teacher training programs offered for credit sponsored by the Bureau. However, several universities conducted courses in adult education which could lead to teacher certification. Additionally, the Bureau and LAPCAE sponsored a three-day teacher training program through 310 monies. Over 100 teachers participated.

1. Louisiana Staff Development Project for Full-Time Adult Education Personnel

Because full-time adult education personnel form the core of professional expertise and serve the majority of adult education clients in the State, it was the intent of this project to provide teacher training activities to meet the practical needs and immediate concerns of full-time instructors and administrators.

The project was designed to meet the following major objectives: 1) to conduct a statewide survey of local full-time adult education personnel to determine their priority needs for training: 2) to use the survey results in developing a comprehensive three-day training conference to address the identified training needs: 3) to plan, organize, and implement a statewide teacher training conference for full-time adult education personnel: and 4) to evaluate the proceedings of the

conference and submit all major recommendations, suggestions, and/or conclusions in a final evaluation report to the Bureau of Adult and Community Education for dissemination.

The proposal was initiated in cooperation with the Bureau of Adult and Community Education to minimize costs and provide for maximum participation in and support for the program throughout the State.

The President of the Louisiana Association for Public Community and Adult Education (LAPCAE) served as project director and selected, with approval of the Board, eight local full-time adult education practitioners to serve as staff associates to assist in the overall planning, organization, and implementation of project activities.

Because of budget limitations and local school system travel restrictions, most full-time adult education instructional personnel had been unable to attend State, regional, and/or national conferences, workshops, or training programs to any appreciable extent. To ensure maximum participation and attendance of full-time instructional personnel at the conference, the project provided travel expenses for 100 local adult education instructional personnel from throughout the State.

G. Goal No. 7

To improve and increase public awareness of adult education opportunities throughout the State.

1. Statewide Supervisors' Promotional Efforts

To promote awareness of the adult education program, State legislators were contacted by area supervisors, "fact sheets" about the program were sent rut, and legislators were invited to participate in adult education activities and graduation ceremonies. Efforts were also made to involve local school boards in adult education activities.

2. State

A staff member of the Bureau of Adult and Community

Education was designated to promote the program by developing various publicity activities in cooperation with LEA's. All 66 systems promoted their programs through various organizations, media, and churches. Additional activities were: 1) 45,000 flyers were disseminated to various agencies, organizations, institutions, and proprietary schools; 2) 80,000 flyers were placed in Aid to Families of Dependent Children (AFDC) checks to inform those clients about the program; and 3) over 4,370 general information brochures were disseminated statewide upon request from local systems.

3. Local

(a) <u>Jefferson Davis: A proposal to Identify and Licate</u>

<u>Hard-to-Reach Adults Eliqible for Louisiana's Adult Basic</u>

<u>Education Program</u>

The purpose of this project was to develop procedures

and techniques to assist parish personnel in the location and identification of hard-to-reach adults cligible for Louisiana's Adult Basic Education Proq. am. Five products were developed and field-tested during the project period. They included: 1) a plan for project implementation, 2) a plan for a cooperative agreement with other human services and volunteer agencies serving the target population, 3) media techniques to assist local parish personnel, 4) a media campaign designed to coordinate parish recruitment activities, and 5) a plan for ensuring the identification and location of native Indians eligible for program participation.

All monitoring as well as evaluative data was summarized in the final project report. A manual was completed and will be shared with the Beauregard and Vernon Parish adult education programs. The manual includes goals, a campaign schematic, critical work activities, and a med a calendar. Models of visual promotional materials were also produced. The Jefferson Davis Parish adult education program will utilize this media campaign manual during 1985-86 and in subsequent years.

II. Reason for Slippage in Accomplishing any Goals/Objectives

The goals as previously indicated have been adequately met.

Reasons for slippage, if any, have been identified in the preceding section of the report. (Refer to Appendix A.)

Nevertheless, the decrease in State funds resulted in a cut back of classes. In 1985 there were 719 classes as compared with 689 in 1986--a decrease of 4.2 percent: 481 students were on the waiting list.

In conclusion, reports indicate that the expansion of programs continued to be limited because of the uncertainty of funding. But local supervisors reorganized plans, e.g. relocated sites for program/instruction and/or utilized personnel to greatly enhance and expand the delivery system of the State adult education program to all populated areas.

III. On a State ide Basis, the Average Cost per Participant

or ABE, the average cost per student was \$103.27, and for R.S. 17:14, \$143.05 per student. The average cost per student for both programs was \$130.23 per year.

IV. Summary

The Adult Education Program provided academic education for 16-year-olds and above with less that a high school education, with emphasis on decreasing the illiteracy rate in Louisiana.

The program enrolled 49,461 adults in R.S. 17:14, ABE, and through other specially designed programs.

In the ABE and R.S. 17:14 programs, 36,182 were retested. The average of the initial test scores was 8.6, and the average of the

final test scores was 10.2. The average grades elevated were 1.6 per 77.2 hours of attendance at a low cost of only \$1.67 per hour of instruction. The average cost per student was \$130.23.

In the R.S. 17:14 program, the total enrollment was 33,521; the total hours of student attendance were 2,450,415; the average cost per instructional hour was \$1.96; and the average cost per student enrolled was \$143.05.

In the ABE program, 15,940 students enrolled; the total hours of attendance were 1,368,445; the cost per instructional hour was \$1.20; and the average cost per student enrolled was \$103.27.

Records indicate that 10,371 students graduated with GED diplomas. There were 5,276 who completed the eighth grade, and 7,016 were issued upgrading certificates: 689 classes were conducted in populated areas of the State and 1,030 persons employed.

Twenty-three full-time and 69 part-time administrators, 102 full-time instructors, 572 part-time teachers, 96 full-time paraprofessionals and other full-time support personnel, and 168 other part-time instructional and noninstructional personnel constituted the staff.

As in the previous year, the majority of classes were conducted in the evenings in secondary and elementary school buildings.

Additionally, 48 learning centers offered alternative adult education classes on a full-time basis in 33 parishes. Specially designed reading programs established in 39 parishes offered reading on a one-to-one basis for adults functioning at the eighth grade level and below; and 26 full-time vocational-technical adult education centers were conducted in 25 parishes.

- V. Recommendations: The following recommendations were made by supervisors:
 - 1. Provide adequate funding for total program operation, for program maintenance--computer repairs, purchase of testing materials, and student books and supplies.
 - Maintain LEA's budget after negotiation for the school year.
 - 3. Provide additional funds for instructional materials and supplies to adequately serve those adults currently enrolled in the program.
 - Provide additional monies to adult education--somewhat comparable to the regular education program--to allow for instruction, adequate equipment, and supplies.
 - 5. Continue to provide summer teacher training institutes and encourage universities to provide adult education courses to facilitate teacher certification.
 - 6. Provide funds to place full-time teachers on a nine-month contract.
 - 7. Provide funds to employ part-time day-time instructors at learning centers to meet increased student enrollment.
 - 8. Provide additional funds to purchase teaching materials.
 - Provide funds to purchase computers, reading laboratories, and other supplementary materials.
 - 10. Provide additional funds to purchase computer software to meet the educational objectives of computer-assisted instruction.
 - 11. Provide addictional funds to upgrade and replenish the reading laboratory at the three main centers. The machines, filmstrips and tapes have become somewhat worn because of the large amount of student use.
 - 12. Provide additional funds for expansion of the English as a Second Language (ESL) Program. There are an increasing number of ESL students needing adult education services.
 - 13. Provide the local program evaluation form in advance of the on-site evaluation.

- 15. Devise a structured system for checking out materials in selected populated areas.
- 16. Computerize the record keeping functions of the East Baton Rouge Parish Adult Education Program.
- 17. Provide additional funds to expand the program at the Lincoln Detention Center.

APPENDICES

GOALS FOR ADULT EDUCATION LOUISIANA STATE PLAN FCR ADULT EDUCATION 1985 -1988 BULLETIN 1763

Goal No. 1

To serve all segments of the undereducated abult population in all 66 local school systems of the State.

Goal is. 2

To improve overall adult education services through the development of additional full-time adult education programs, employing full-time professional adult education supervisory and instructional personnel.

Goal No. 3

To expand the delivery system of adult education through outreach efforts involving cooperative agencies, organizations, and institutions serving adults who reside in rural and urban areas with high rates of unemployment, those with limited English-speaking skills. institutionalized adults, immigrants, and others with special needs.

Goal No. 4

To improve the instructional quality of local adult education programs.

Goal No. 5

To promote and expand literacy efforts through adult basic education programs, volunteer groups, and literacy programs to reach the least educated and most in need of assistance.

Goal No. 6

To promote professionalism by strengthening and supporting adult education certification requirements for employment.

Goal No. 7

To improve and increase public awareness of adult education opportunities throughout the State.

T0:

All Adult and Community Education Supervisors

FROM:

Glenn Gossett, Director Llenn

Bureau of Adult and Community Education

SUBJECT: Statewide Conference

A statewide meeting of Adult and Community Education supervisors will be held at the Prince Murat Inn in Baton Rouge on Thursday, January 9 and Friday, January 10, 1986. This meeting will be of utmost importance. I hope that you will mark your calendar now and plan to attend both days of the conference.

The main purpose of the meeting is to address continuing fiscal problems and possible solutions. State Representative Jimmy Long will be the featured speaker on Thursday morning. Registration will be held from 8:00 a.m. to 9:00 a.m. A \$15 fee will be charged which includes a Cajun cookout to be held on Thursday evening at the hotel.

Please fill out the attached form and return it as soon as possible so that appropriate plans may be made.

Again, I urge your to make every effort to attend this important meeting. Thank you for your cooperation.

MINUTES, Page 30 February 27, 1986

- 8-I-2 On motion of Br. Fourrier, seconded by Mr. Roy, the Board referred to Vocational Technical Committee, the report from the Directors' Association on the proposal for fees to be charged vocational technical students.
- On motion of Br. Fourrier, seconded by Mr. Roy, the Board received the report from the Director's Association relative to the possibility of Adult Education funds being used to fund the Special Needs instructors in vocational technical schools and requested that the item be deleted from the agenda.
- On motion of Br. Fourrier, seconded by Ms. Henry, the Board deferred action regarding a process of obtaining funds from the LEAs MFP allocation on the local school systems for students attending vocational technical schools on a part-time basis.
- On motion of Br. Fourrier, seconded by Mr. Bankston, the Board received the report by the Directors' Association on the cost of course offerings in the proprietary schools and the vocational technical schools on a comparable basis.
- On motion of Br. Fourrier, seconded by Mr. Bankston, the Board authorized the Department to conduct a fiscal impact survey relative to the sabbatical leave policy.
- 8-1-7. On motion of Br. Fourrier, seconded by Ms. Henry, the Board approved the curriculum development proposals submitted by the Vocational Curriculum Development and Research Center.
- On motion of Br. Fourrier, seconded by Ms. Harrison, the Board approved as a pilot program for nine weeks, using the curriculum guide for Long Term Care-Nursing Assistant Program submitted by Jefferson Parish Westbank Vocational Technical School and requested the school to submit a report on the program.

On motion of Br. Fourrier, seconded by Ms. Snellings, the Board received and approved the request of the School Library Advisory Council.

- Item 9-C <u>Multiple Curriculum Study Committee</u> (Schedule 14)
- 9-C-1 On motion of Br. Fourrier, seconded by Ms. Harrison, the Board requested the Bureau of Research and Development to prepare a survey and a report on the effects of increased graduation requirements on the dropout rate in Louisiana.
- 9-C-2 On motion of Br. Fourrier, seconded by Mr. Roy, the Board requested that public hearings on the need for and the effects of a multiple curriculum be held in the state as scheduled by the Department of Education.
- 9-C-3
 On motion of Dr. Bertrand, seconded by Br. Fourrier, the Board requested Mr. Richard Thompson, Bureau of Student Services, to notify all parishes of recent Board action on students who transfer from public school to GED programs not be considered as dropouts. The Board further requested that this policy be advertised in the Louisiana Register.
- 9-D-l Mr. Soileau informed the Board that Mr. M. C. Perry was re-elected Chairman of the Textbook and Media Advisory Council for the 1986 Calendar Year.
- 9-D-2 Mr. Soileau informed the Board that the Textbook and Media Advisory Council re-elected Dr. Arlon Adams as Vice Chairman of the Council for the 1986 Calendar Year.

On motion of Br. Fourrier, seconded by Ms. Harrison, the Board received the report of the Textbook and Media Advisory Council.

STATE BOARD OF ELEMENTARY AND SECONDARY EDUCATION ADULT EDUCATION COMMITTEE AUGUST 20, 1985---3:00 P.M. COMMITTEE ROOM I

MINUTES

The Adult Education Committee meeting was called to order at 3:05 P.M. by Mr. Jesse Bankston, Chairman. Member recorded as present was Dr. John Bertrand. Mr. Glenn Gosselt represented the SDE and Mr. Leonard Hayes represented the Board staff. Mr. Keith Johnson joined the meeting at 3:10 P.M.

After a discussion of Adult Education Special Projects and Teacher Training Proposals for FY 85-86, the Committee took the following action:

On motion of Dr. Beitrand, seconded by Mr. Johnson, the Committee recommends that the Board approve the following Adult Education Special Projects and Teacher Proposals for FY 85-86, as recommended by the Department and the Adult Education Advisory Council:

| University of New Orleans | \$ 11,062 |
|----------------------------------|--------------|
| Louisiana Association for Public | 29,000 |
| Community and Adult Education | · |
| Lafayetto Parish School Board | 17,633* |
| Evangeline Parish School Board | 44,148 |
| St. Mary Parish School Board | 42,940 |
| Bossier Parish School Board | 4,058 |
| Bienville Parish Schoo' Boar | 16,922 |
| 19th Judicial Court | 6,818 |

*This amount reflects \$869.00 more than approved by the Adult Education Advisory Council due to an addition error by the SDE.

After a discussion of the allocation of State (R.S.17:14 as amended) and Federal (ABE, ...L. 91-230 as amended) Funds to local school systems, the Committee took the following action:

On motion of Mr. Johnson, seconded by Dr. Bertrand, the Committee recommends that the Board adopt the allocations of State (R.S.17:14 as amended) and Fede (ABE, P.L. 91.230 as amended) Funds to local school sys ems, as recommende by the Department and the Adult Education Advisory Council. (COF)

After a discussion of a study of the impact of the Adult Education program on the reduction of the illiteracy rate in the state and in parishes with high incidence of illiteracy, the Committee took the following action:

On motion of Dr. Bertrand, seconded by Mr. Johnson, the Committee recommends that the Board president appoint a special study committee to look at the problem of illiteracy and to make recommendations regarding future state efforts to reduce the high incidence of illiteracy in Louisiana.

The meeting adjourned at 3:50 P.M.

2

STATE BOARD OF LLEMENTARY AND SECONDARY EDUCATION ADULT EDUCATION ADVISORY COUNCIL AUGUST 19, 1985----10:30 A.M. COMMITTEE ROOM I

MINUTES

The meeting of the Adult Education Advisory Council was called to order at 10:35 a.m. by the Chairman, Dr. Ted Schilling. Council members present were Dr. Courtney Cheri and Mr. Robert Arceneaux. Mr. Glenn Gossett represented the SDE and Mr. Leonard Hayes represented the Board staff.

- On motion of Mr. Arceneaux, seconded by Dr. Cheri, the Council approved the minutes of April 22, 1985.
- Dr. Schilling suggested that Item (1) of the Adult Education Advisory Council agenda, Consideration of Adult Education Specia Projects and Teacher Training proposals for FY 85-86, be delayed until August 20, 1985 at 10:00 a.m. since the Council had not yet received copies of the projects. Dr. Schilling requested that Dr. Cheri chair the meeting.
 - --- Mr. Leo Babin, representing Mr. Berard, joined the meeting at 11:40 a.m.---
- On motion of Mr. Arceneaux, seconded by Dr. Cheri, the Council recommends that the allocations of State (R.S.17:14 as amended) and Federal (ABE, P.L. 91-230 as amended) Funds to local school systems for FY 85-86 be approved as recommended by the department. (COF)
 - On motion of Mr. A teneaux, seconded by Dr. Cheri, the Council expressed a desire to participate in the illiteracy study upon the receipt of the definition of illiteracy to be used and further statistical information regarding the various currently operating programs established to work on the problem of illiteracy.

The Council requested that Board staff submit to them a copy of any reports on illiteracy discussed in the Adult Education Committee.

The Council adjourned at 11:00 a.m.

SUBJECT: GED Video xt Series

The Bureau of Adult and Community Education in cooperation with Louistana Dublic Broadcasting is offering an instructional television series that focuses on basic skills development in reading, English grammar, and mathematics. The program is a refresher course for adults who are preparing to take the GED Tests. The series will be televised again this spring beginning January 7, 1986.

Enclosed are copies of a flyer which describe the program and provide a television viewing schedule. Please make these pamphlets available to your students and the general public.

It is recommended that adults viewing the series use the three <u>Kentucky Educational Television Study Guides</u>. There is also a teacher's <u>guide</u> entitled <u>User's Guide for KET Videotapes/Videotexts</u>, which contains material in all three <u>subject</u> areas. These materials may be obtained from some bookstores in larger cities or through Cambridge, The Adult Education Company, 888 Seventh Avenue, New York, New York 10019. If you would like to order the study guides direct from Cambridge, you may call toll free 1-800-221-4764 or direct dial (212) 957-5262.

If you have any questions or need additional flyers, please contact Suellen Marcotte at (504) 342-3510.

Thank you for your assistance.

DEPARTMENT OF EDUCATION OFFICE OF VOCATIONAL AND ADULT EDUCATION WASHINGTON, D.C. 20202

INSTRUCTIONS FOR PREPARING THE ANNUAL PERFORMANCE REPORT FOR

THE ADULT EDUCATION STATE-ADMINISTERED PROGRAM

Further payments or other benefits may, but will not necessarily, be withheld unless this report is completed and filed. (34 CFR 76.720)

PART 1 - STATISTICAL

TABLE I. Report the population that was served by adult education programs in the State with Federal and non-Federal funds under Public Law 91-230, as amended. The following "Guide for Reporting Participants" should be used: (1) Only participants who completed 12 or more program "contact hours" in the adult education program or met their objectives in less time during the "reporting period" should be recorded on this report. (2) Also include program participants who met rule #1 and who were (a) participants from other Federal programs for whom any direct services were provided at clearly additional costs to the adult education program (e.g., when an influx of 40

ED 365-1, 6/85

participants necessitenes operating 2 or 3 extra classes), (b) participants in special experimental demonstration projects, and (c) participants served through coordination activities with other agencies, institutions, or organizations.

TABLE I, PART A. Provides a profile of participants (unduplicated count) by educational functioning level and population groups.

Educational Functioning Level.

"LEVEL I" - an adult who is unable to read, write, and compute sufficiently tall to meet the requirements of adult life in the United States, or an adult who lacks a mastery of basic educational skills that will enable him/her to function effectively in U.S. society. This term should be applied for foreign born adults having limited English proficiency. Additionally, this term is equivalent to the beginning and intermediate levels of basic education as defined by the State. For States using grade level measures, Level I includes grades 0-8 and ESL. States using competency-based or othe measures should describe the methods used to detenine a participant's educational functioning level.

"LEVEL II" - an adult who is literate and can function in everyday life, but is not proficient. This term is equivalent to adult secondary education as defined by the State. For States using grade level measures, Level II includes grades 9-12. States using competency-based or other measures should describe the thods used to determine a participant's educational functioning level.

<u>Population groups</u>. The racial/ethnic designations do not denote scientific definitions of anthropological origins. For the purpose of this report, an enrollee may be included in the group to which he or she appears to belong, identifies with, or is regarded in the community as belonging. However, no person should be counted in more than one racial/ethnic group.

"AMERICAN INDIAN OR ALASKAN NATIVE" - A person naving origins in any of the original peoples of North America, and who maintains cultural dentification through tribal affiliation or community recognition.

"ASIAN OR PACIFIC ISLANDER" - A person having origins in any of the origina' peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands. These areas include, for example, China, India, Japan, Korea, the Philippine Islands, and Samoa.

"BLACK, NOT OF HISPANIC ORIGIN" - A person having origins in any of the Black racial groups of Africa, but not of Hispanic culture or origin.

"HISPANIC" - A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.

"WHITE, NOT OF HISPANIC ORIGIN" - A person having origins in any of the original peoples of Europe, North Africa, or the Middle East, but not of Hispanic culture or origin.

TABLE I, PART B. Provides a profile of participants (unduplicated count) by age and sex.

TABLE I, PART C. Provides a profile of part cipants by a variety of demographic variables. The figures reported on this table will be duplicative and should reflect the status of the participant at the beginning of this reporting period or upon initial entrance into the program during the reporting period. Use the "Guide for Reporting Participants" as described in the instructions for Table 1.

For the purposes of this report the following definitions should be used:

"EMPLOYED" - persons who did any work at all as paid employees or in their own business or profession, or on their own farms or who worked 15 hours or more per week as unpaid workers on a farm or in a business operated by a member of the family, and persons who were not working but who had jobs or businesses from which they were temporarily absent.

"UNEMPLOYED" - persons who were not working but were looking for a job and were available for work. This includes persons who were waiting to be called back to a job from which they had been laid off and persons waiting to report to a new job.

"PUBLIC ASSISTANCE" - financial assistance from Federal, State, and/or local programs, such as aid for dependent children, old-age assistance, general assistance, and aid to the blind or totally disabled.

"HANDICAPPED ADULTS" - persons who are sixteen years of age and older with any type of physical or mental impairment that substantially limits or restricts one or more major life activ. ies, including walking, seeing, hearing, speaking, learning, and working. This definition includes adults who are alcohol and drug abusers, mentally retarded, hearing-impaired, deaf, speech-impaired, visually handicapped, seriously emotionally disturbed, orthoped tally impaired, other health impairments, and adults with specific learning disabilities.

"ADULT WITH LIMITED ENGLISH PROFICIENCY" - adults who have difficulty in understanding, speaking, reading, or writing the English language so that they are denied the opportunity to learn efficiently in a learning environment where the language of instruction is English.

Include only persons whose native language is not English.

"ADULTS IN RURAL AREAS" - adult residents of places of less than 2,500 inhabitants and outside urbanized areas. An urbanized area includes a population of 50,000 or more in a city plus the adjacent areas of high density.

181

"ADULTS IN URBAN AREAS WITH HIGH RATES OF UNEMPLOYMENT" - adult residents of an urban area (i.e., 50,000 or more population) which is classified as a "labor surplus area" by the U.S. Department of Labor.

(A State shall use the most recent annual list of labor surplus areas produced by DOL in determining a response to Table 1. C. 7.)

"IMMIGRANT ADULTS" - adult refugers admitted or pa_sled into the U.S. and adult aliens not classified as nonimmigrants under the provisions of the Immigration and Nationality Act, as amended.

"INSTITUTIONALIZED ADULTS" - adults who are inmates, patients, or residents of a correctional, medical, or special institution.

TABLE 1, PART D. Requires inf. mation on participant achievements.

TABLE 2. Requires data on number of paid and volunteer personnel are part-time and full-time personnel for five different personnel categories (part time and full time as defined by the State). Indicate in the narrative report the definition of part time and full time used by the State.

"ADMINISTRATIVE/SUPERVISORY/ANCILLARY/SERVICES PERSONNEL" -those professionals who are responsible for the management, administration, and supervision of programs, and ancillary services personnel who are responsible for services such as evaluation, teacher development, dissemination, and curriculum development.

"TEACHERS" - staff who instruct students.

"COUNSELORS" - staff assigned to perform the activities of assisting adult learners and of assisting instructors to assist learners in making personal plans, choices, and decisions in relation to education, career, and personal development.

"PARAPROFESSIONALS" - staff who work alongside and assist professional staff members but do not have full professional status, e.g., teacher/classroom aides and teaching assistants.

TABLE 3. Shows the number of participants leaving the program during this reporting period and their reasons for leaving. Numbers of participants by reasons for leaving may be a duplicated count.

PART II - NARRATIVE

Provides descriptive information for the narrative items. Maximum number of pages is 10.

Use the following outline in preparing the narrative part of the Annual Performance Report:

- 1. For each goal and/or objective listed in your three-year State plan, describe the extent to which the goals and/or objectives were met. Include a description of successful activities, programs, and projects.
- 2. Provide reasons for slippage in those cases where little or no progress was made in the accomplishment of your goals or objectives and describe those programs or projects that were not as successful as expected.
 - 3. Determine on a statewide basis the average cost per student.

INSTRUCTIONS

FINANCIAL STATUS REPORT - ED 365

Item 1 is preprinted.

- Items 2, 3, 6,7,8,9,10b,10c,10g,10h,10k,101,11a, and 12 are self-explanatory. Specific instructions for other items are as follows:
- Item 4. Employer Identification Number. Enter the employer identification number assigned by the U.S. Internal Devenue Service of FICE (institution) code, if required by the Federal sponsoring agency.
- Item 5. Recipient Account Number or Identifying Number. This space is reserved for an account number or other identifying numbers that may be assigned by the recipient.
- Item 10. Report only in the unshaded cells. Columns (a) through (e) contain preprinted headings for reporting expenditures. The following are explanations of what expenditures should be reported in each column:
 - Column (a). State Administration. This is to cover all State management and supervisory expenditures under the Adult Education State Plan, including expenditures for State Advisory Councils under section 311 of the Adult Education Act. DO NOT include in this column amounts allocated for teacher training and special projects or for ancillary services such as evaluation, teacher training, dissemination, and curriculum development.
 - Column (b). Section 310. Report expenditures for Special Projects and Teacher Training funded under section 310 of the Adult Education Act.
 - Columns (c) and (d). Programs of Instruction. These should include all expenditures which are incurred by local educational agencies and public and private agencies in conducting adult education classes for undereducated adults, including expenditures for programs for institutionalized persons and programs for persons with limited English proficiency. DO NOT include in the column expenditures for special projects and teacher training.
 - Column (e). Institutionalized Persons. Report expenditures for programs for institutionalized persons. These expenditures will also appear in columns (c) and (d).
- Item 10a. For a fiscal year carryover report, enter the net outlay. This amount should be the same as the amount reported on Line 10e of an initial report made for the same fiscal year. If there has been an adjustment to the amount shown previously, attach explanation. For an initial fiscal year report, show zero. For reports that are prepared on a cash basis, outlays are the sum of actual cash disbursements for goods and services, the amount of indirect expense charged, the value of in-kind contributions

applied, and the amount of cash advances and payments made to contractors and subgrantees. For reports prepared on an accrued expenditure basis, outlays are the sum of actual cash disbursements, the amount of indirect expense incurred, the value of in-kind contributions applied, and the net increase (or decrease) in the amounts owed by the recipient for goods and other property received and for services performed by employees, contractors, subgrantees, and other payees.

Item 10d. Total outlays for the report period indicated in item 9.

Item 10e. Line a plus line d.

Item 10f. Enter amount pertaining to the non-Federal share of program outlays included in the amount on line e.

For items 10i and 10j, unliquidated obligations are:

Cash basis - obligations incurred but not paid.

.Accrued expenditure basis - obligations incurred but for which an outlay has not been recorded.

Do not include any amounts that have been included on lines a through g. Include unliquidated obligations to subgrant was and contractors.

If the report is final, it should not contain any unliquidated obligations.

Item 10m. Unobligated Balance of Federal Funds. Enter the unobligated balance of Federal funds.

Item 11b. Rate. Enter rate in effect during the reporting period.

Item 11c. Base. Enter amount of the base to which the rate was applied.

Item 11d. Total Amount. Enter total amount of indirect cost charged during the reported period.

Item lle. Federal Share. Enter amount of the Federal share charged during the report period. If more than one rate was applied during the project period, include a separate schedule showing bases against which the indirect cost rates were in effect, amounts of indirect expense charged to the project, and the Federal share of indirect expense charged to the project this date.

REPORTS ARE DUE ON OCTOBER 1 EACH YEAR. REPORTS SHOULD BE SUBMITTED TV:

Division of Adult Education
Office of Vocational and Adult Education
Department of Education
400 Maryland Avenue, S.W.
Washington, D.C. 20202-3585

Further payments or other benefits may, but will not necessarily, be withheld unless this report is completed and filed. (34 CFR 76.720) ED 365

*CERTIFICATION STANDARDS FOR ADULT EDUCATION PERSONNEL

Adult Education Instructor

A person who holds a valid standard Louisiana teaching certificate may become certified as an adult education instructor by having 5 years of adult education experience prior to the implementation of certification requirements September 1, 1982, or by completion of a minimum of 12 semester hours as follows:

- A. Introduction to or Foundations of Adult Education 3 semester hours
- B. Practicum in Adult Education 3 semester hours
- C. A minimum of 6 semester hours from the areas of:
 - 1. Materials, Methods and/or Curriculum Development in Adult Education
 - 2. Reading Instruction in Adult Education
 - 3. Adult Learning and Development
 - 4. Utilization of Community Resources
 - 5. Administration and Supervision of Adult Education
 - 6. Guidance and Counseling in Adult Education
 - 7. Competency Based Adult Education
 - 8. Independent Study, Special Problems or Issues in Adult Education
- D. Adult Education personnel having a minimum of 3 years of adult education experience prior to the implementation of certification requirements shall receive a waiver of criteria A and B above.
- E. Certification in Adult Education shall be required for full-time Adult Education instructors. Part-time Adult Education instructors would not be required to seek certification, and certification would be on a voluntary basis.

Administrator and/or Supervisor

A person who holds certification as an adult education instructor and certification as a City or Parish Supervisor of Instruction may become certified as an Administrator and/or Supervisor of Adult Education.

PLUS Project Literacy U.S.

PLUS is a major national media/outreach project on the subject of adult illiteracy in the United States, a public service campaign being undertaken jointly by the American Broadcasting Companies, Inc. (ABC) and the Public Broadcasting Service (PBS).

Illiteracy is a serious national and local problem, and a human tragedy for those concerned. Current data indicate that there are at least 23 million adult Americans whose reading, writing, comprehension, and simple math skills vary from almost none to a fourth grade level. Many millions more are classified as semi-literate -- those whose skills are at the fifth to eighth grade levels. Illiteracy is a fundamental problem in the sense that it is a contributing cause to many other social and economic problems. It can be remedied if, to an increasing degree, those who can help will mobilize training opportunities and those who need help can be motivated to learn.

The purpose of PLUS is to help maximize these processes through local community organizations and national and local television and radio programming. The project will operate in two phases -- outreach development (from now through summer 1986) and awareness-raising through ou-air programming (during the 1986-87 broadcast season, September until June).

It is crucial to the strategy of PLUS that outreach development precede awareness-raising so that to the maximum extent possible community resources will be mobilized and in place to help adult learners when the demand increases. A newly formed station group, the Public Television Outreach Alliance, will lead the effort for PBS, developing materials and working with a broad range of supportive national organizations. ABC and PBS stations will work with local chapters of these organizations and other local resources to help create or enhance literacy task forces in their respective communities across the nation.

Beginning in September, both ABC and PBS will provide on-air national coverage of the illiteracy problem in all varieties of news and informational programming. In addition, the ABC Entertainment Division will endeavor to provide thematic treatment of illiteracy in the story lines of dramatic programming -- children's, daytime, and prime time. To provide continuity between these programming events, ABC and PBS will produce public service announcements. ABC Radio will carry public service announcements and mini-documentaries on illiteracy on its networks. ABC and PBS stations will supplement national programming with their own local programming.

The co-project directors of PLUS are: Margot Woodwell, Vice President and Station Manager, WQED, 4802 Fifth Avenue, Pittsburgh, PA 15213; and Dr. John E. Harr, Vice President, Office of Communication, ABC, 1330 Avenue of the Americas, New York, NY 10019. Inquiries are welcomed on outrach participation and should be directed to WQED: (412) 622-1491.

PLUS Literacy Project

The PLUS Literacy Project will be initiated in two phases--

- 1. Outreach development -- January 1986 through summer 1986
- 2. Awareness--raising through on air programming--September 1986-June 1987

The two networks involved are ABC and PBS. The Public Television Outreach Alliance is leading the effort for P25.

Outreach development--Task force organization, assessment of local programs, creation of new programs and/or expansion of existing programs will take place. PLUS will disseminate information to assist in these efforts.

On air programming--On air coverage by ABC and PBS, children's prime time and daytime television.

ABC and PBS will produce PSA's; ABC radio will participate; ABC and PBS will supplement national programming with local programming.

ABC

- 1. News documentary on plight of illiterate Americans (9/3)
- 2. This Week with David Brinkley (9/7)
- 3. ABC--World News Tonight (9/8-12)
- 4. 20/20 (9/17)
- 5. ABC After School Special
- 6. Nightline

PBS/LPB

- 1. "Community Solutions"--PBS will air a documentary examining successful methods of dealing with the problem of illiteracy. LPB will conduct a phone-in. (9/17)
- 2. "The American Ticket," (KCET/LA)--A 26 part television series that will educate adult students in basic literacy, computation, employment and daily living skills. It is targeted at nonreaders 15 years and older, including high school dropouts and those who speak English as a second language.
- 3. "GED TV Series"--Revised, it will begin October 25 and consist of 43 programs rather than the previous 39. (LPB)
- 4. "Project Second Chance"--Developed by Arkansas Educational TV Network to promote the KET GED Series. This program strikes at the problem of the high school dropout and a proven strategy for remedial action. It is a national program for both the general public and those who would like to earn a high school diploma.

FOR
FISCAL YEAR 1986

Bureau of Adult and Community Education

BUREAU OF ADUL: AND COMMUNITY EDUCATION On-Site Evaluation Report Fiscal Year 1986

Each of the local adult educational programs in the 66 local educational agencies in the State was evaluated during FY 1986. The evaluations were conducted on-site by the supervisory staff of the Bureau of Adult and Community Education of the Louisiana Department of Education. A specific evaluation form has been designed and was used during each evaluation.

Selected portions of the evaluation form were compiled for the purpose of reporting results to the U.S. Department of Education,

Division of Adult Services. Other sections were developed to collect data for the State Department of Education only. These sections have not been included in this report. That which follows is the information gathered for reporting program information to the U.S. Department of Education.

Program Data

Recruiting: In this section, the compilations reflect the number of local educational agencies that indicated each response.

Cooperative Agencies: This section reflects involvement of other agencies in the recruitment of adult education students. The number next to the name of the agency gives the number of LEAs that reciprocate support with these government agencies and/or institutions.

Other: This gives a listing of additional government agencies, organizations, and institutions used by the local adult education programs in their recruitment efforts.

1

Business and Industry: The number next to the name of the business or industry reflects the number of times that the particular item was cited in the local evaluation report. This format will be used throughout this report when a listing is included.

News Media: The number reflects the number of the 66 LEAs in populated areas that used the media in their recruiting efforts.

Extent of Planning and Implementation of Programs with Local Agencies

Following are statements from local supervisors and administrators of adult education programs in populated areas of the State:

Facilities and services are shared with the Southwest Vocational-Technical School. The parish department of mental health and other agencies screen, recommend, and refer potential students to the program.

Flyers were distributed to cooperative agencies who refer clients to adult education. The full-time teacher publicizes the program on a local radio talk show.

Brochures are distributed to churches, city hall, and other locations in the community. Newspaper articles are published in local papers before, during, and after the school year. Local Public Service Announcements (PSA's) are given on the radio.

Parent Teacher Organization (PTO) groups in the parish were contacted and informed about the adult education program. Churches made announcements concerning classes. Our parish library also placed posters and distributed flyers to the public. An ad was placed in our local newspaper at the beginning of the school year and also during Adult Education Week.

A referral network has been established between adult education programs and cooperating agencies.

There is on-going cooperation with the Beauregard Parish prison system which provides educational services for inmates; and efforts are being made to procure funds from the Job Training Partnership Act (JTPA) for adult education in the parish.

The supervisor of the adult education program works very closely with governmental agencies, both state and local, as well as local employers and prospective employers. These agencies refer adults to the

2

supervisor, an adult education teacher, paraprofessional, principal, or counselor. Personal contact is r de with the adult who is interested, and an invitation is extended to attend one of the adult classes nearest his/her residence. Churches throughout the parish have opened their doors to the adult education program; however, no classes are currently being conducted in churches. Ministers and church members have been very active in recruitment efforts. High school principals and guidance counselors throughout the parish have referred names of dropouts, as well as those of parents of students who have less than a high school education. In addition, they have also referred a number of pregnant girls who left the K-12 system because of health and safety reasons.

Several businesses in the parish have referred employees to the adult education classes located throughout the parish. A large number of these persons have received the GED diploma and job promotions as a result.

The Bossier Parish School System Adult and Continuing Education Program enlists the aid of all agencies and individuals in the northwest area of Louisiana in a comprehensive recruiting and retention activity. Life-long learning opportunities are offered by the Adult Education Program (Learning Center and Site Classes) and by the Community Education Program, offered through the Bossier Parish Community College.

Cooperative efforts were developed with the Prison, Job Corps, Northwest Louisiana Rehabilitation Center, Commercial College, Evergreen House, and American College.

In the early summer, our local adult education directory is updated. The agencies and organizations listed in the directory are either visited or telephoned to assure us that these are the appropriate individuals to contact for assistance in our endeavor. Brochures are disseminated to these agencies, organizations, and institutions in the hope that these groups will distribute them to those who need and are seeking our services. In many cases, brochures are also placed in announcement racks and circulars are placed on bulletin boards. These brochures describe the adult education services that are available to the public. Some of these parish agencies and institutions are Social Security, Family Services, CAL-CA, Veterans' Administration, Employment Bureau, and hospitals. A follow-up is conducted with these agencies and institutions.

The supervisor maintains contact with three or four industries that are in the area. Notices and brochures are disseminated in the community. These brochures provide information about the adult education program.

The supervisor visited the Cameron Parish Library and left pamphlets which described the program. He also distributed flyers at various offices in the parish courthouse, as well as in grocery stores and churches.

Letters and phone calls were the primary methods used to contact agencies and organizations. Information regarding time, dates, and locations of adult education classes were given at this time. Owners, managers, and chairpersons of agencies and organizations we a asked to dispense this information as they deemed it necessary. They were also asked to recommend the program to adults without high school diplomas and to those who needed upgrading and/or refreshment courses.

The supervisor enthusiastically voices the offerings of the Adult Education Program in Claiborne Parish as he works with remunity programs and agencies. Broures, pamphlets, letters, and so forth are distributed in the community to places such as banks, able 1 offices, service stations, and convenience stores for people to take and read.

All Civic Clubs and agencies are kept informed of current adult education services. These agencies and clubs are asked to promote the services offered through adult education. They are encouraged to refer all prospective candidates for adult education. The Concordia Parish School Board works closely with the welfare department, and prospective students are frequently referred by this agency. Additionally, articles and pictures are sent to the local newspapers.

Some agencies with which members of the DeSoto Parish and Adult and Community Education staff plan and work closely are as follows: (1) the Mansfield Vocational-Technical School and (2) the Community Action Agency (DAAA) which supplies one Adult Education evening class site, while the Mansfield Housing Authority contributes its Housing Center for evening classes. The Adult Education instructors help the tenants to compute their rent, utilities, and other needs, while supplying motivational material for housing maintenance and beautification.

Many persons who enroll in the trades at the Vocational-Technical School eventually become interested in taking and qualify to take the GED test.

The supervisor makes a series of regularly scheduled visits with a number of community agencies in an effort to improve cooperation and communication. Agencies contacted were Baton Rouge Vocational Technical Institute, Teen Parenting Center, J.M. Frazier Vocational Technical Institute, and Commercial Colleges in the Baton Rouge area. Additionally, a cooperative arrangement with the East Baton Rouge Parish School Board for upgrading teacher aides was established.

The supervisor meets with the directors of the various public, civic, and/or religious bodies or organizations and solicits support. At that time, specific ways of helping the Adult Education Program are set forth and agreed upon. Notices are sent to the local paper, and written agreements are submitted to the radio station.

4

The Vocational Technical School refers students to adult education classes when the students need a high school diploma. The supervisor also works with Dixon Correctional Institute.

Adult education personnel contact clergy, public officials, and business and civic leaders for permission and cooperation in disseminating program information. Local radio stations and newspapers have been cooperative in giving free advertisement to the program.

Classes were conducted at the Council on Aging site nine hours per week. Life-coping skills, reading, and writing are taught to elderly adults.

Announcements are made through churches, newspapers, and calls to the school board.

Last summer, the Sheriff's office requested the establishment of an adult education program for inmates. This was for persons convicted of misdemeanor crimes and not placed in jail. The program, which would lead to a General Educational Development (GED) Diploma, would be made mandatory by the judge as part of their probation. This request was presented to the Bureau of Adult and Community Education, and funds were provided to operate the program in FY 1985-86. Currently, there are 14 inmates in attendance. It is hoped that by the end of the year some inmates will become eligible to take the GED test and ultimately receive their high school equivalency diploma. The program looks hopeful for the future.

The Iberville Adult Education Program of operation involves Family Services/Welfare, Vocational-Technical School, Local Government (Parish), Anti-Poverty Program, Corrections and the Veterans' Administration to the extent that those agencies refer students to the adult education program and assist in recruitment of students.

The supervisor makes contact with various agencies in the community such as Welfare, Council on Aging, Community Action, and the Sheriff's Department to discuss the program and place brochures and other information that describes adult education services. One of the leading grocery stores advertised the program along with sales and distributed leaflets in grocery bags for customers. Additionally, Community Action provides transportation for handicapped students to attend the Adult Learning Center. The supervisor also contacted the director of HUD in the community and left application blanks for participants. Additional students were obtained through this effort.

The news media publicize and advertise class schedules along with the cooperative activities of the adult education program and other agencies.

The supervisor speaks to civic groups to inform members of the adult education program, schedule of classes, and so forth. Announcements are made through churches. Newspaper articles appear four to five times a year listing class schedules, sites, and other pertinent data. Newspaper supplements on parish schools include articles about adult education.

Churches and agencies in an impoverished area donated their facilities for classes. There is a class at the parish correction and detention center. Also, students from the juvenile detention center attend the vocational-technical school adult education class.

Personal contacts with pastors are made, and pastors are asked to help with recruitment of adults needing the GED. Radio and newspapers make the schedule of classes known to the public.

Agencies are aware of our efforts and upon contact, will respond in whatever ways are appropriate. Through cooperation and coordination of efforts at the Lincoln Detention Center, Retired Senior Volunieers (RSVP) provide tutoring for prisoners, and the adult education program provides instructional materials, testing, and direction to the program.

The supervisor visited Livingston Parish Head Start; contacted members of civic clubs; outlined the program of services to principals of all schools in Livingston Parish, distributed pamphlets and flyers; discussed the program with JTPA staff and the warden at the parish prison; and worked with Livingston Parish Youth Services Bureau, probation and parole officers, courts and church officials to familiarize each with adult education program in Livingston Parish.

A cooperative agreement exists between the Madison Parish Adult Education Program and the Tallulah Vocational-Technical School to implement adult education to special needs students. This program is open entry and open exit. The teacher is employed by the adult education program. The facilities and materials are provided at no cost to the adult education program. The classroom instructional program is needed to provide students seeking vocational-technical training with background knowledge for job training and success.

Other agencies in the community recruit and refer their clients in need of education to the adult education program.

The adult education program serves on a part-time basis clients from Christian Acres Juvenile Correctional Home that are ineligible to participate in regular education programs offered by the local public schools.

School opening announcements and handouts were sent to churches, business, civic and social clubs, news apen and radio stations. Former students were extended specific invitation by telephone or mail. Public and parochial schools cooperated by sending announcements home by school children.

Information is provided to all the cooperating agencies through written materials or personal presentations. Handbills are distributed through various civic organizations, schools, and churches to publicize the program and announce class schedules.

Through cooperation with JTPA and Natchitoches High School the program was provided with a part-time clerical helper (graduating high school senior).

The agencies inform undereducated adults about the services of the adult education program. Flyers, brochures, and so forth are provided to agencies for distribution. Personal contact is made by the supervisor with the heads of agencies to promote the program.

We ask various agencies to advise us how our programs might serve their clients and employees. We also inform them of what our program has to offer them.

Chamber of Commerce members were made aware of the adult education program in the parish. Committee members were encouraged to disseminate the information to local businesses and industries.

Churches in the area were sent flyers outlining the adult education program. This information was posted on the church bulletin board.

A developed adult education brochure is disseminated throughout the parish to various local agencies. Notices are also placed in local stores.

Cooperative effort has been implemented with the Rapides Parish Jail where 111 inmates were enrolled and 15 passed the GED and will graduate this year. The program operates for 10 months in cooperation with the local educational agency. Additionally, cooperative efforts were implemented with the following: Camp Beauregard Prison, Renaissance Home for Boys, LTI Ball for Girls, Pinecrest State School, Briarwood Hospital, and Central Louisiana State Hospital. These agencies were provided adult education through testing and other educational services on request.

Before programs are begun, supervisors and teachers do house-to-house recruiting for interested persons. Telephone recruiting is used by both parties during the program's operation to encourage students to attend classes.

The local agencies are made aware of the adult education program in Richland Parish through the news media, personal contacts, and bulletins. A special publicity program was developed and instituted for the purpose of improving public relations. Many of our adult education students are welfare recipients or receive benefits under Social Security. These agencie and others frequently contact the adult ducation office relative to enrollment procedures and other pertinent matters.

An Adult Advisory Council has been established. This council includes teachers, aides, school personnel and business men and women. The members meet, eat, and plan ways to better reach and help people in Sabine Parish.

There is a close working relationship between the adult education program and the community college. The college representatives refer students that need a high school diploma as an entry requirement. Various parent-teacher organizations are addressed and informed about the program and its availability in the ommunity to adults who wish to upgrade themselves academically.

Advertisement is carried in the bi-annul community Education "Newsletter." Also our teachers and aides meet with various groups and organizations to present the overall program and to recruit students. Many of the agencies automatically recommend students, particularly the Health Unit and Senior Citizens' organizations. There is also a good working relationship with the high school counselors in our parish.

Elderly groups are invited to attend adult education classes and are notified of class schedules. The Welfare office and Social Security office act as referral agencies.

Personal contact is made by the supervisor and teachers to recruit students. Church, newspaper, and radio announcements are another main recruitment method.

A schedule of classes is distributed throughout the area through churches and the media. Additionally, through cooperation with the vocational-technical school, an on-site Adult Learning Center has been established to serve adults with special academic needs. Cooperation with agencies involves a referral network for the Adult Education Program.

Announcements about the adult education program are made in churches.

The supervisor of adult education conducts informal meetings with representatives of various agencies, parents, and students. The purpose is to plan and improve services. A letter is sent to selective representatives in the community explaining the parish offerings. Local members of the Legislature were informed of budget needs and so forth.

Flyers are sent to parents by school children. Parent Teacher Association groups also assist in distributing flyers. Cooperative agencies refer students to the program.

A referral network has been established among various organizations. Also, the Job Training Partnership Act program involved about 40 additional students in the program.

The fo'lowing activities were implemented and attained: (1) visiting by key personnel to adult education classes, (2) discussing pertinent concerns and needs, (3) outlining a program to meet these needs, (4) implementing the program, (5) evaluating its effectiveness, (6) conducting tutoring, (7) establishing site classes at the Council on Aging (COA) Center, and (8) the Madison Job Training Program of Tallulah and the Motivation Education Training Program of Jennings (Newellton Branch) working together to locate eligible clients for academic and on-the-job training.

Through cooperation with the JTPA, a program with computer training to improve students' opportunity to obtain a GED diploma was implemented. Additionally, the South Louisiana Vocational Technical Institute received a JTPA grant with the assistance of the Terrebonne Parish School System to conduct a GED program parallel to the System's program. Other cooperating agencies in the community refer students to the program as needed to upgrade academic skills.

The Lions Club and the Department of Welfare refer students to adult education. Day and night classes are taught in the vocational-technical school. Baker Brush Company encourages employees without a diploma to enroll in adult education.

Extension of planning and implementation is done as the need occurs and/or by various agencies as requested.

Presidents or directors of various agencies are contacted for speaking engagements. Agencies invite us to speak at dinner meetings. Leaflets are prepared and distributed in the surrounding areas. Work is conducted with agencies in setting up referral programs. Release work time or granting of leaves for students to go back to school is encouraged.

The parish director met with local corrections personnel. In the meeting, they planned and set hours of class attendance for those in the local parish jail and persons presently on probation or parole. Parish director and Assistant Superintendent, Dr. Doerge also met with the Louisiana Bureau of Employment to involve the adult education program with JTPA funds and classes.

The family service director is provided brochures that describe the adult education program. These brochures are placed in the lobby of the Office of Family Security for the clients. The public library is also used as an outlet to disseminate adult education brochures to the general public. The Driver's License Bureau refers adults who have difficulty in obtaining a driver's license because they cannot read. The Vocational-Technical School refers its undereducated adult students to the adult education program for upgrading.

A referral network has been established betweer adult education programs and cooperating agencies.

Local agencies are aware of the adult education program and are helpful in distributing brochures, pamphlets, posting posters, and doing anything else that might need to be done to publicize the program. Often times presentations are made about the program to interested groups.

Letters and newspaper articles are released to the lay public prior to the commencing of the program each year. Through the ministerial body classes are held on-site in churches if 15 or more show an interest in the program. These church sites serve those adults who are unable to attend or feel uncomfortable in a regular school site. Classes are additionally established in city jails and rehabilitation centers to upgrade the academic level of inmates; and in hospitals to meet the needs of special adult groups employed by the institution.

The supervisor of adult education works with the administrators of various agencies to determine their particular needs. In the case of the Lafayette Parish Correctional Center, it was determined that the need was great enough for a special project on-site at the new correctional facility. In the case of the other agencies, it was recommended that clients attend any one of the many class locations. It was also found that it would be beneficial to locate a class at Delta School of Alexandria, Lafayette Branch, but the class was not established because of a lack of funds.

A list has been compiled identifying the plants in the St. James area and the plant manager for each prospective plant. Planning has been centered around upgrading their workers especially in the area of mathematics. We have discussed adult education with the St. James Community Action and the St. James Council of Aging resulting in input for program planning. The River Parish Chamber of Commerce has been involved in this effort.

Supervisor and teachers communicate orally and through written communications to local groups and organizations.

Audit Requirements

This entire section on audit requirements was omitted from this evaluation report because it relates specifically to the State administration of the program.

Instructional Personnel

This section described the kinds of instructional personnel that participated in the adult education program. ABE stands for Adult Basic Education. All personnel designated as ABE personnel are paid out of federal adult education funds.

R.S. 17:14 (Act 274 of 1975 as amended) provides State funds for adult education programs. Therefore, all Act R.S. 17:14 personnel are paid from these State funds. This next section gives definitions for the kinds of instructional personnel who participate in the adult education program.

A full-time teacher is one who is employed to provide adult education instructional activities in a full-time learning center. Full-time adult education teachers are employed on a contractual basis, based upon salary rates for regular public school teachers with similar degrees and experience. Full-time teachers paid on a contractual basis must be employed for a minimum of 25 hours per week.

A part-time teacher is employed on an hourly basis for specific instructional services, not to exceed 20 hours per week.

Certified teachers--All adult education teachers must possess a valid Louisiana Teaching Certificate. Full-time adult education teachers and administrators must also be certified in adult education.

Administrators

For information purposes, the definitions of all of the administrative positions at the local program level are given.

Director--This position provides full-time adult education responsibilities for overall administration and supervision of larger adult education programs serving approximately 2,500 adult enrollees each year through a variety of full-time and part-time programs.

Supervisor--This may be a full-time or a part-time position with the individual assigned overall adult education supervisory responsibilities.

Coordinator--This may involve a full-time or a part-time position with the individuals assigned specific administrative responsibilities for a particular site, facility, or cluster of adult education classes. This position may involve a combination of administrative, instructional, and/or counseling responsibilities. Full-time coordinators may also be assigned administrative responsibilities of overall supervision of a local adult education program in lieu of designation of a local supervisor from the school board office.

Cor inator/Teacher--This position should provide full-time education responsibilities for coordination or instruction in a full-time adult education center or class and may involve a combination of administrative, instructional, and/or counseling activities.

Several local educational agencies maintained a waiting list totalling 481 persons desiring to enter adult education programs.

Recommendations that were made by the supervisors are listed below:

- Provide adequate funding for total program operation, for program maintenance--computer repairs, purchase of testing materials, and student books and supplies.
- 2. Maintain LEA's budget after negotiation for the school year.
- 3. Provide additional funds for instructional materials and supplies to adequately serve those adults currently enrolled in the program.
- 4. Provide additional monies to adult education--somewhat comparable to the regular education program--to allow for instruction, adequate equipment, and supplies.
- 5. Continue to provide summer teacher training institutes and encourage universities to provide adult education courses to facilitate teacher certification.
- 6. Provide funds to place full-time teachers on a nine-month contract.
- 7. Provide funds to employ part-time day-time instructors at learning centers to meet increased student enrollment.
- 8. Provide additional funds to purchase teaching materials.
- 9. Provide funds to purchase support computers, reading laboratories, and other supplementary materials.
- 10. Provide additional funds to purchase computer software to meet the educational objectives of computer assisted instruction.
- 11. Provide additional funds to upgrade and replenish the reading laboratory at the three main centers. The machine, filmstrips and tapes have become somewhat worn because of the large amount of student use.
- 12. Provide additional funds for expansion of the English as a Second Language (ESL) Program. There are an increasing number of ESL students needing adult education services.
- 13. Provide more lead time between the time that the form for the local program evaluation of adult education is mailed and the time of the on-site evaluation.
- 14. Revise end-of-the-year forms, especially Profile of Adult Educaton Participants, Parts C and D.
- 15. Devise a structured system for checking out materials in selected populated areas.

- 16. Computerize the record keeping functions of the East Baton Rouge Parish Adult Education Program.
- 17. Provide additional funds to expand the program to the Lincoln Detention Center.
